Commercial Management David Lowe, 2013-08-05 Commercial Management theory and practice defines the role of commercial management within project oriented organisations providing a framework for and helping to develop a critical understanding of the factors that influence commercial management practice It also identifies generic aspects of this practice and provides a theoretical foundation to these activities by reference to existing and emergent theories and concepts as well as to relevant management best practice The book is structured into four parts Part 1 Introduction Commercial Management in Project Environments explores the nature of commercial practice within project oriented organisations at the buyer seller interface It presents a Commercial Management framework which illustrates the multiple interactions and

connections between the purchaser's procurement cycle and a supplier's bidding and implementation cycles. Additionally, it outlines the principle activities undertaken by the commercial function, identifies the skills and abilities that support these activities, and reviews the theories and concepts that underpin commercial practice. Finally, it identifies areas of commonality of practice with other functions found within project-oriented organisations, plus sources of potential conflict and misunderstanding. Part 2: Elements of Commercial Theory and Practice covers commercial leadership, exploring strategy, risk and uncertainty management, financial decision making, and key legal issues. Part 3: Approaches to Commercial Practice addresses best practice management and commercial and contracting strategies and tactics. Finally, Part 4: Case Studies offers two extended case studies: Football Stadiums: the Millennium Stadium, Cardiff; the Emirates Stadium, Islington; and Wembley Stadium, London; and Heathrow Terminal 5. The book provides a one-stop shop to the many topics that underpin commercial management practice from both a demand-buy side and a supply-sell side perspective. It will help develop an understanding of the issues influencing commercial management: leadership, strategy, risk, financial, legal, best practice, management, and commercial and contracting strategy and tactics. This book's companion website is at www.wiley.com/go/lowecommercialmanagement and offers invaluable resources for both students and lecturers: PowerPoint slides for lecturers on each chapter; sample exam questions for students to practice; weblinks to key journals and relevant professional bodies.

Improving project performance using the PRINCE2 maturity model (P2MM) Andy Murray, Mike Ward, 2007-07-31. The guide shows how P2MM can be used to help implement PRINCE2 for first-time users, reinvigorate existing implementations, help organisations improve their project performance as a benchmark to assess organisational capability, and plan improvements as a means of gaining external recognition for organisational capability and as part of a wider goal to improve Portfolio Programme and Project Management performance.
