Hollywood or History? Tim Monreal, Jesús A. Tirado, 2025-06-20 Hollywood or History helps classroom teachers include more accurate Latinx stories in their classroom We believe that when used intentionally and critically media representations of Latinx communities and histories are powerful tools for high quality curriculum and instruction *Hollywood or History?* Scott L. Roberts, Charles J. Elfer, 2024-10-01 In response to the limitations associated with teaching through film we sought to develop practical lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms One of the more interesting sources of visual media many authors in the previous volumes elected to use as the focus of their lesson plans were cartoons These lesson plans have been some of the more popular in the series and are often easier to adapt for a variety of grade levels In conducting research for this volume we learned that cartoons are an often used media sources in the classroom They have similar strengths and weaknesses in not only the teaching of history but other social studies disciplines as well While in many cases their intended audience is younger children people of all ages enjoy cartoons This makes them useful for teaching students at all grade levels as well as adults as there will be immediate buy in if used as a source of analysis for inquiry based lessons As with live action film we believe cartoons can also serve as a powerful tool in the social studies classroom and if appropriately utilized can foster critical thinking and civic mindedness The College Career and Civic Life C3 framework adopted by the National Council for the Social Studies in 2013 represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing The C3 is comprehensive and ambitious Moreover we believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that the present volume might play a small role in the larger Hollywood or History project of supporting practitioners specifically teachers of preK 12 social studies disciplines by offering a collection of 19 classroom ready lesson designed to foster social studies inquiry through the careful use of selected cartoons

Fostering Diversity and Inclusion in the Social Sciences Amy Samuels, Gregory L. Samuels, 2021-08-01 The United States social and economic inequities stood in high relief during the COVID 19 pandemic spotlighting the glaringly disproportionate systemic injustices related to public health and the economic impact on minoritized communities Realities of structural and institutionalized racism and classism were exposed to greater degrees as we sought to understand and investigate the inequitable impact regarding health and income disparities for African American Latinx and Native American communities as well as racial violence explicitly targeting Asian American communities Further exacerbating the polarized sociopolitical landscape amidst the pandemic the murder of George Floyd in May 2020 witnessed by countless people around the world resulted in anguish and drew heightened attention to the insidious racial injustice and ongoing racial violence that continues to plague the nation As many

advocates took to the streets in an attempt to have their voices heard in the continued struggle for racial equality the federal government tried to further silence those who have been historically placed on the margins including the attack of critical race theory antiracism work in education and training for diversity and inclusion Consequently it is imperative social science educators are equipped with the knowledge tools and dispositions to facilitate learning that explores the implications of power privilege and oppression and ask important questions to ensure voices that have been muffled or silenced altogether are strategically unsilenced voiced and valued Given the perpetuation of inequities existing educational disparities and the continued need for reconciliation this volume explores how the social sciences can be examined and reimaged to combat injustices and support further diversity equity and inclusion Authors explore how educators can understand how knowledge is constructed shaped and influences how students see the world b problematize current curricular approaches and reframe instructional practices c employ a critical lens to attend to and proactively address existing challenges and inequities related to race d infuse their teaching with greater attention to diversity and inclusion for all students and e promote increased awareness advocacy and educational justice Through the examination of research theory and practitioner oriented strategies the authors encourage reflection inspire calls for action and explore how to teach about proactively challenge and encourage continued examination of society to support progress through increased critical consciousness cultural competence and critical multiculturalism
