Acquaintances Old New Among Reformers:

Acquaintances, Old and New, Among Reformers Olympia Brown, 1911 An autobiographical account of Olympia Brown's work in the early women's rights movement. It is well written and easy to read. Its treatment of the events surrounding the early suffrage campaign is a bit superficial but it might provide a good overview for high school students. Encyclopedia of Women Social Reformers Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present. Despite being marginalized, disenfranchised, impoverished and oppressed, women have always stepped forward in disproportionate numbers to lead movements for social change. This two-volume encyclopedia documents the visions, struggles and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe, women who have bravely insisted that the way things are is not the way they have to be. Nadeshda Krupskaya, the wife of Lenin, spearheaded the drive against illiteracy in post-revolutionary Russia. American Dorothy Day founded the Catholic worker movement. Begum Rokeya Hossain organized a girls' school in Calcutta in 1911. Rachel Carson launched the modern environmental movement with her book *Silent Spring*. The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world.

Women and the Work of Benevolence Lori D. Ginzberg, 1990-01-01 Nineteenth-century middle-class Protestant women were fervent in their efforts to do good. Rhetoric, especially in the antebellum years, proclaimed that virtue was more pronounced in women than in men and praised women for their benevolent influence, moral excellence and religious faith. In this book, Lori D. Ginzberg examines a broad spectrum of benevolent work performed by middle and upper middle-class women from the 1820s to 1850 and offers a new interpretation of the shifting political contexts and meanings of this long tradition of women's reform activism. During the antebellum period, says Ginzberg, the idea of female moral superiority and the benevolent work it supported contained both radical and conservative possibilities, encouraging an analysis of femininity that could undermine male dominance as well as guard against impropriety. At the same time, benevolent work and rhetoric were vehicles for the emergence of a new middle-class identity, one which asserts that virtue, not wealth, determined status. Ginzberg shows how a new generation that came of age during the 1850s and the Civil War developed new analyses of benevolence and reform. By post-bellum decades, the heirs of antebellum benevolence referred less to a mission of moral regeneration and far more to a responsibility to control the poor and vagrant, signaling the refashioning of the ideology of benevolence from one of gender to one of class. According to Ginzberg, these changing interpretations of benevolent work throughout the century not only signal an important transformation in women's activists' culture and politics but also illuminate the historical development of American class identity and of women's role in constructing social and political authority. *Catalog of Copyright Entries*, 1911 **Wisconsin Votes** Robert Booth Fowler, 2008 In *Wisconsin Votes* Robert
