Assessing the Impact of Computer-Based Instruction Margaret D Roblyer, William Castine, F J King, 1988-11-16 Can computer applications help improve student performance For what skills grade levels content areas and type of students are computer applications most effective Can computer applications improve student attitude toward school and decrease drop out rates Discover what the research reveals in this provocative new book about these and other crucial questions concerning the impact of computer based instruction Assessing the Impact of Computer Based Instruction provides the most comprehensive and up to date summary available on the effects of computer applications on both student achievement and attitudes Within its pages are also the most extensive bibliography ever prepared on past reviews of research current reports and articles and dissertations in the area of computer uses in education This groundbreaking new book provides educational decisionmakers with the facts they need in order to justify the expense and effort of maintaining and expanding the instructional role of computers in schools It is also useful as a resource text in the pre service training of computer educators and for graduate students doing research in instructional computing

Learning: Theory and Practice Paul Erick Johnson, 1971

Bold Ventures S. Raizen, E.D. Britton, 2012-12-06 This book presents comprehensive results from case studies of five innovations in science education that have much to offer toward understanding current reforms in this field Each chapter tells the story of a case in rich detail with extensive documentation and in the voices of many of the participants the innovators the teachers the students Similarly Volume 3 of Bold Ventures presents the results from case studies of five innovations in mathematics education Volume 1 provides a cross case analysis of all eight innovations Many U S readers certainly will be very familiar with the name of at least one if not all of the science innovations discussed in this volume for example Project 2061 and probably with their general substance Much of the education community's familiarity with these arises from the projects own dissemination efforts The research reported in this volume however is one of the few detailed studies of these innovations undertaken by researchers outside the projects themselves Each of the five studies was a large scale effort involving teams of researchers over three years These teams analyzed many documents attended numerous critical project meetings visited multiple sites conducted dozens of individual interviews The team leaders Atkin Huberman Rowe having spent much time with science education over long careers looked at these innovations through many lenses It was a daunting task for each team to sift through the mountains of detail in order to bring the most compelling themes to the surface
