Active Learning Through Formative Assessment:

Active Learning Through Formative Assessment Shirley Clarke, 2008 Shirley Clarke's latest book following her hugely popular *Formative Assessment in Action* 2005 puts formative assessment within the context of active learning maximising pupil engagement effective dialogue and reflective thinking and is packed with practical advice and examples from early years to secondary across all subjects Central to the whole process of using assessment for and as learning is the way in which pupils become involved in all learning and assessment processes the explanations and classroom examples in this book demonstrate why and how to do it Drawn from across the age range and all subjects they exemplify effective learning objectives clear success criteria talk partner techniques effective questioning quality discussion with pupils and self and peer evaluation of work New themes include how to develop a growth mindset so that pupils enjoy challenge rather than avoid it for fear of failure how popular strategies such as thinking skills and building learning power complement formative assessment advice on current national expectations for summative assessment and planning with key skills Shirley also explains how to set up your own action research learning team in an individual school a cluster of schools or any other educational setting and how best to support classroom teachers in their journey through the culture and practice of formative assessment Down to earth practical and direct this book gives busy teachers the essential how to information they need with clear principles and theory to underpin the wealth of practical advice and examples Publisher's website **Enhancing**

Learning through Formative Assessment and Feedback Alastair Irons, Sam Elkington, 2021-08-25 Assessment is a critical aspect of higher education because it has a range of powerful impacts on what staff and students do and how universities operate Underpinned by relevant theory and practical advice this fully updated new edition takes into account the changing expectation of students in the context of an increasingly complex and shifting higher education environment to promote the role of formative assessment and formative feedback and its impact on shaping the student learning experience Presented through the lens of contemporary perspectives empirical evidence and case studies across a broad range of subject disciplines this new edition aims to encourage teaching and support staff to focus on the promotion of student learning through designing and embedding high impact formative assessment processes and activities Key content covers the theoretical and philosophical aspects of formative assessment and formative feedback the learning environment in which students undertake their learning activities helping teachers develop appropriate formative assessment and provide effective formative feedback the impact of formative assessment and formative feedback activities have on learning teaching and assessment design as well as on the academic workload of tutors the contemporary issues and challenges currently driving research into formative assessment the use of technology in formative assessment and how different tools and technologies allow for the provision of effective and efficient formative feedback the benefits of understanding how students respond to formative assessment and formative feedback as an opportunity to review the effectiveness of the teaching and learning

methods and techniques the integral role of formative assessment and formative feedback plays in postgraduate research settings and how innovations in formative assessment and feedback inform key developments in large scale assessment change Aimed at both experienced and early career practitioners in higher education this text is ideal reading for educators who wish to see a movement away from a higher education system driven by summative assessment to one where a more holistic approach to education positions learning standards rather than measurement and grades as central to effective assessment and crucially to return to a focus on student learners

Enhancing Teaching and Learning through

Assessment Steve Frankland,2007-10-16 Assessment is the daily life of a teacher designing plans setting questions giving feedback and grading are all activities that teachers undertake on a regular basis This book provides a practical guide on the effective use of assessment It includes the use of assessment tools and pedagogical design that help students deepen their learning Major issues on assessment and some excellent examples are presented as a useful resource to university teachers in enhancing teaching and students learning

The Mobile Course Design Journey Alex Rockey,2023-10-11 The Mobile Course Design Journey provides practical strategies to college and university educators and faculty support professionals looking to develop accessible mobile learning experiences Given the near ubiquity of mobile device ownership today creating courses that can be completed entirely on a mobile device is essential to captivating student attention and supporting equity minded pedagogy This book frames effective mobile design within a continuum in which educators can make gradual yet meaningful changes to their instruction and course content while leveraging learners existing tools and literacies Original ready to use features such as a rubric for evaluating the mobile friendliness of course content and assignments as well as a toolkit for leading workshops on mobile design will further help to demystify mobile learning in higher education

Learning Through Practice Mason Ross,AI,2025-02-22 Learning Through Practice argues that actively engaging with material through hands on practice and experiential learning is crucial for effective knowledge acquisition and long term memory retention The book explores the cognitive and educational psychology behind why doing solidifies understanding more effectively than passive methods Did you know that kinesthetic learning which involves physical activity can significantly enhance memory encoding Or that immediate application of knowledge boosts motivation and strengthens neural pathways The book uniquely integrates theoretical insights from psychology and education providing educators with a framework for incorporating experiential learning into classrooms with practical strategies and examples Beginning with foundational concepts like active recall and embodied cognition it progresses through the psychological basis of learning by doing evaluations of various experiential learning models and practical applications across educational settings This approach emphasizes active participation over traditional rote memorization a vital shift considering the need for adaptability in today s world The book s exploration of active learning highlights its impact on cognitive development memory retention and curriculum development By examining empirical studies and case studies Learning Through Practice offers a

guide for educators and learners alike to implement active learning strategies and educational techniques Ultimately it advocates for a move towards educational models that prioritize engagement and hands on practice **Active Learning in Higher Education** Wendy Garnham, Isobel Gowers, 2023-02-09 This insightful new book explores perspectives on active learning as creative discovery conceptualisations of active learning spaces and transitions from theoretical approaches to active learning practice It draws on the experiences of academics learning technologists and clinical practitioners and invites the reader to think about our conceptualisations of active learning and to move beyond mere demonstrations of its effectiveness With contributions from academics and NHS practitioners this publication will make a unique contribution to the literature that increasingly points to the value impact and reach of active learning pedagogy It importantly addresses the need for active learning highlighting some of the many theoretical issues that active learning raises through three broad lenses The idea of active learning as creative play The use of theoretical models in designing active learning The transition from active learning theory to practice Aimed at anyone with an interest in active learning as a pedagogical approach **Active Learning in Higher Education** provides a starting point for further discussion and development of pedagogical theory becoming an essential read for educators school leaders as well as researchers in the field of education **Talk for Writing Across the Curriculum, How to Teach Non-Fiction Writing to 5-12 Year Olds (Revised Edition)** Pie Corbett, Julia Strong, 2020-08-26 This bestselling resource has been fully updated putting formative assessment at the heart of the Talk for Writing process and showing how to help children love writing across the curriculum By helping children speak the language of non fiction in a fun engaging way before they attempt to write the Talk for Writing approach builds children s confidence and linguistic ability enabling them to craft their own writing In the new edition this practical resource offers Fully worked tried and tested examples of how to apply Talk for Writing to each non fiction text type A wide range of fun activities helping children internalise how to express and link text effectively A process that co constructs learning so that children learn how to structure text and create toolkits of key ingredients Guidance for teachers in England on how to apply the approach across the primary curriculum An OLC including new footage of Pie Corbett demonstrating Talk for Writing and new footage of classes engaged in the approach Advice on how to use the DVD and handouts to train all staff in the approach Evidence of impact from cold to hot tasks Designed for busy teachers Talk for Writing across the Curriculum second edition will help transform children s writing and attainment across the curriculum This book celebrates the importance of talk in becoming and growing as a writer talk to share ideas talk to analyse text talk to co construct writing and to talk to evaluate writing Throughout the book constantly underlines the importance of talk for learning and the many creative and rich ways talk can be used to help young writers internalise the rhythms and patterns of text Full of practical ideas and activities the teaching combines being creative and being critical in a wholly integrated way An invaluable resource for primary school teachers Debra Myhill Professor of Education at the University of Exeter UK The teaching of reading has always taken priority in

policy and practice in literacy Pie Corbett and Julia Strong have produced a very welcome counterweight to that dominance in their Talk for Writing Across the Curriculum It is so refreshing to see suggestions for teaching to bring elements of language together especially when done in such an entertaining and engaging way as this This new edition makes a classic even better David Wray Emeritus Professor University of Warwick UK This latest update of Pie and Julia s best selling book reflects changes in the curriculum strengthening the T4W approach using cold and hot tasks showing new worked examples of how to apply T4W to each non fiction type and placing formative assessment at the heart of the process It is exciting to see how all the best ideas and findings in education are converging evidenced in this latest up to the minute excellent publication Shirley Clarke Formative Assessment Expert

Reform in Undergraduate Science Teaching for the 21st Century

Dennis W. Sunal, Emmett L. Wright, Jeanelle Bland, 2006-05-01 The mission of the book series Research in Science Education is to provide a comprehensive view of current and emerging knowledge research strategies and policy in specific professional fields of science education This series would present currently unavailable or difficult to gather materials from a variety of viewpoints and sources in a usable and organized format Each volume in the series would present a juried scholarly and accessible review of research theory and or policy in a specific field of science education K 16 Topics covered in each volume would be determined by present issues and trends as well as generative themes related to current research and theory Published volumes will include empirical studies policy analysis literature reviews and positing of theoretical and conceptual bases

Becoming a Teacher of Reading Margaret Perkins, 2015-03-10 Learning to read is one of the most important life skills teachers can help a child develop Teaching reading is a vital part of a career in the classroom and engaging with the range of different learning styles children have is a real challenge Trainee teachers need to learn how to address this variety of learning needs and also meet the wider demands of the curriculum Margaret Perkins helps students meet these challenges to become a confident reflective teacher of reading by providing An in depth explanation of phonics teaching alongside other teaching approaches empowering trainees to choose the right approach for each individual child Key research findings so students can apply the latest thinking to their teaching practice School based activities and independent learning tasks to help apply theory to practice and develop teaching skills through self reflection Classroom scenarios of teacher child interactions that demonstrate how children learn and respond to different teaching strategies

Reflective Teaching in Schools

Andrew Pollard, Kristine Black-Hawkins, Gabrielle Cliff Hodges, Pete Dudley, Steve Higgins, Mary James, Holly Linklater, Sue Swaffield, Mandy Swann, Mark Winterbottom, Mary Anne Wolpert, 2018-11-29 The book you can trust to guide you through your teaching career as the expert authors share tried and tested techniques in both primary and secondary settings For this new edition Andrew Pollard has worked with the same core author team to bring you expert guidance from top practitioners in the form of a text that is both cohesive and that continues to evolve to meet the needs of today s teachers It is designed for trainees whether in universities or schools such as School Direct SCITT Reflective Teaching in Schools

uniquely provides two levels of support practical evidence based guidance on key classroom issues including relationships behaviour curriculum planning teaching strategies and assessment evidence informed principles and concepts to help you continue developing your skills New to this edition 10 Lesson Study cases illustrate the impact this approach can have on classroom teaching whether in a city Primary School or rural Secondary Academy 10 Toolkit Evidence summaries based on the Sutton Trust EEF Teaching and Learning Toolkit cover topics like collaborative learning New Reflective Activities and guidance on Key Readings at the end of each chapter Updates to reflect recent changes in curriculum and assessment across the UK reflectiveteaching.co.uk provides a treasure trove of additional support It now includes a new chapter on mentoring a glossary to help decipher the difference between IEP and LAP and much more
