PREFACE

**Dhahran, Saudi Arabia
February, 1993**

The purpose of the Saudi Aramco Construction Safety Manual (CSM) is to prevent injury, loss of life, and damage to assets. This is the fourth revision of the CSM. The construction industry functions in a dynamically changing work environment in which updating of equipment and standards is a continuous process resulting from changes in operating variables, regulatory requirements, and safety practices. Although this manual has been updated to reflect the latest Saudi Aramco and construction industry practices, as time goes on there may be a need to consider new procedures, standards, or operating conditions. Such new developments, including potential conflicts with existing provisions, should be referred to the Loss Prevention Department for resolution. The Loss Prevention Department will issue interim revisions or updates where appropriate.

Good loss prevention is an integral part of good project management. For our projects and maintenance programs to proceed safely, all Saudi
