Literature has experienced two great medium shifts each with profound implications for its forms genres and cultures that from orality to writing and that from writing to printing Today we are experiencing a third shift from printed to digital forms As with the previous shifts this transformation is reconfiguring literature and literary culture The Cambridge Companion to Literature in the Digital Age is organized around the question of what is at stake for literary studies in this latest transition Rather than dividing its chapters by methodology or approach this volume proceeds by exploring the major categories of literary investigation that are coming under pressure in the digital age concepts such as the canon periodization authorship and narrative With chapters written by leading experts in all facets of literary studies this book shows why all those who read study and teach literature today ought to attend to the digital *Materials* Julia McMorrough, 2006 Publisher description

Metaphoric Architecture Michael C. Abrams, 2025-07-14 Metaphoric Architecture focuses on a fundamental but often challenging part of the beginning design phases how to take an abstract idea and transform it into a three dimensional object space or building Through media experimentation analysis of innovative case studies and hands on exercises Abrams guides

the reader through the early stages of design which include site and precedent analysis among other initial approaches To comprehend design thinking the visual arts music and film are examined in relation to architecture Chapters demonstrate how abstract ideas inspired by paintings music and films can be utilized in the spatial design process and transformed into habitable spaces There are 22 exercises that increase in complexity to strengthen students abilities and promote the use of digital and manual representation in a back and forth motion With 444 illustrations this book demystifies the process of designing 3D form and space in a highly visual way It will be the ideal studio companion for beginning and intermediate students of both architecture and interior design with a wide range of architectural lessons that include abstraction design fundamentals concept development building design case study analysis and site to building relationships [The Art of City Sketching](#) Michael Abrams,2021-05-20
