

CX-1

Pathfinder is the
**STATE-OF-THE-ART IN
FLIGHT COMPUTERS**

Pilots have recognized the CX-1 as the most technologically advanced flight computer available because of outstanding features like:

- 8K ROM ... faster than any other hand-held flight computer.
- Information is automatically stored in memory and instantly recalled to screen when needed.
- Pocket-sized for convenience.
- Stows away easily in attractive simulated leather protective case.

How you judge greatness...

1. The **LARGE LCD SCREEN** is the Pathfinder's most obvious and one of its most important features. The LCD screen holds 6 lines of input with **LABEL**, **UNITS REFERENCE**, and the **MENU**. For any singular problem, the CX-1 displays all the data - allowing a visual checklist of your work.
2. Once a problem is selected, you are worked through it line-by-line via **ASA's INFORMATION GUIDANCE SYSTEM (IGS)**. The IGS remains on the line as a **LABEL** for the entered datum.
3. Displayed **REMINDER** of the units you're working in.
4. **MENU** allows quick and easy access to the CX-1's 18 formulas.
5. Not only can the Pathfinder be used just as a calculator, but it also **CALCULATES** in the middle of any equation, if necessary.
6. Just like a large computer, the **ENTER KEY** is used to select from the **MENU** and to enter data as needed.
7. **ARROW** keys move you through the **MENU**.
8. Fewer buttons reduce confusion and **INCREASE EFFICIENCY**.
9. **CONVERSION KEY** converts in and out of metric and will convert time into 1/10ths.
10. **TIMER** function is both count down and count up. In equations using time, the CX-1 will use the amount on timer, if wanted.
