Manual of Egyptian Arabic Douglas Craven Phillott, 1926 Arabic Manual Francis Edward Crow, 1901 Afghanistan's Islam Nile Green, 2017 This book provides the first ever overview of the history and development of Islam in Afghanistan It covers every era from the conversion of Afghanistan through the medieval and early modern periods to the present day Based on primary sources in Arabic Persian Pashto Urdu and Uzbek its depth and scope of coverage is unrivalled by any existing publication on Afghanistan As well as state sponsored religion the chapters cover such issues as the rise of Sufism Sharia women s religiosity transnational Islamism and the Taliban Islam has been one of the most influential social and political forces in Afghan history Providing idioms and organizations for both anti state and anti foreign mobilization Islam has proven to be a vital socio political resource in modern Afghanistan Even as it has been deployed as the national cement of a multi ethnic Emirate and then Islamic Republic Islam has been no less a destabilizing force in dividing Afghan society Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements To help develop a more comprehensive comparative and developmental picture of Afghanistan s Islam from the eighth century to the present this edited volume brings together specialists on different periods regions and languages Each chapter forms a case study snapshot of the Islamic beliefs practices institutions and authorities of a particular time and place in Afghanistan Provided by publishe

Library of Congress Catalogs Library of Congress, 1980 **Subject Catalog, 1979** Library of Congress, 1979 *Expanding Underground - Knowledge and Passion to Make a Positive Impact on the World* Georgios Anagnostou, Andreas Benardos, Vassilis P. Marinos, 2023-04-12 Expanding Underground Knowledge and Passion to Make a Positive Impact on the World contains the contributions presented at the ITA AITES World Tunnel Congress 2023 Athens Greece 12 18 May 2023 Tunnels and underground space are a predominant engineering practice that can provide sustainable cost efficient and environmentally friendly solutions to the ever growing needs of modern societies

This underground expansion in more diverse and challenging infrastructure types or to novel underground uses can foster the changes needed. At the same time the tunneling and underground space community needs to be better prepared and equipped with knowledge tools and experience to deal with the prevailing conditions to successfully challenge and overcome adversities on this path. The papers in this book aim at contributing to the analysis of challenging conditions, the presentation and dissemination of good practices, the introduction of new concepts, new tools and innovative elements that can help engineers and all stakeholders to reach their end goals.

Expanding Underground Knowledge and Passion to Make a Positive Impact on the World covers a wide range of aspects and topics related to the whole chain of the construction and operation of underground structures: Knowledge and Passion to Expand Underground for Sustainability and Resilience, Geological Geotechnical Site Investigation and Ground Characterization, Planning and Designing of Tunnels and Underground Structures, Mechanised Tunnelling and Microtunnelling, Conventional Tunnelling, Drill and Blast Applications, Tunnelling in Challenging Conditions, Case Histories and Lessons Learned, Innovation, Robotics and Automation, BIM, Big Data and Machine Learning Applications in Tunnelling, Safety Risk and Operation of Underground Infrastructure and Contractual Practices, Insurance and Project Management. The book is a must have reference for all professionals and stakeholders involved in tunneling and underground space development projects.

Subject Catalog Library of Congress, [Advances in Sustainable Materials](#) Ajay Kumar, Parveen Kumar, Victor Gambhir, Ramesh Chander Kuhad, 2024-11-05. **Advances in Sustainable Materials Fundamentals** Modelling and Characterization provides a comprehensive review of recent technological developments and research accomplishments in this important field. The chapters cover characterization techniques, modeling of sustainable materials, the role of artificial intelligence, Industry 4.0, nature inspired algorithms and optimization possibilities. Various computational and simulation approaches for maintaining the sustainability of materials are also covered in detail. In addition to the above, various case studies are also included on the application of sustainable materials in medical, environmental, production, mechanical and civil engineering. This collection of state of the art techniques with an emphasis on using various analytical strategies and computational and simulation approaches as well as artificial intelligence will encourage researchers as well as manufacturers to develop more innovative sustainable materials. Covers various types of sustainable materials including polymers, metals, ceramics, composites, biomaterials, biodegradable materials, smart materials and functionally graded materials. Focuses on characterization, modeling and applications of sustainable materials. Describes the outstanding properties of various classes of materials and their suitability for different types of industrial applications.
