Civic Engagement of Asian American Student Leaders Ma. Glenda Lopez Wui, Cameron S. White, 2022-11-23 Civic Engagement of Asian American Student Leaders examines the civic lives of Asian American youth and analyzes their civic engagement through in depth interviews with fifteen student leaders from a Tier One university in Southeast Texas This book provides a counter narrative to the portrayal of Asian Americans as apolitical and less interested in civic matters Such depictions arise from the characterization of Asian Americans as model minority who mainly focus on economic success and are socially and economically integrated in American society However the stories of the student leaders cultivated by Ma Glenda Lopez Wui and Cameron S White illustrate that their challenging racialized experiences inspired their civic involvement Their civic engagement creates empowerment in terms of asserting their ethnic identity imbibing leadership qualities and long term commitment to civic engagement and subverting stereotypes against Asian Americans The book paints a more varied picture of Asian American youth civic engagement that is not entirely anchored in ethnic identity or non political involvement contrary to articulations of existing studies Wui and White hope that the student leaders narratives shed better light on the civic commitments of Asian Americans to American society especially in these times when there is increased bias and racial prejudice in the current atmosphere and culture **Body Image and the Asian Experience**

Hsiu-Lan Cheng, Yuying Tsong, 2024-11-13 Individuals of Asian descent are a demographic often overlooked in mainstream body image scholarship Historically body image concerns were thought to only affect white upper to middle class women in North America and Western Europe However empirical data accumulated in recent decades have subverted this myth Contrary to popular belief and stereotypes that Asian Americans are a Model Minority in the United States they experience significant body image concerns as well as related disordered eating and mental health challenges Asian diasporas in

Western countries also face challenges similar to those faced by Asian Americans e.g. racialized and objectified views of Asians. Asian nationals in Asia on the other hand are juggling between their collective and national standards of beauty, fitness and the body image ideals propagated through commercialism and capitalization amidst the historical context of colonization and the contemporary atmosphere of globalization. *Body Image and the Asian Experience: Asians, Asian Americans and Asian Diasporas Across the Globe* discusses the dearth of knowledge and sometimes misinformation about body image among people of Asian descent including Asian nationals dwelling in Asia and those in the diaspora: Asian Americans, Asian immigrants in the United Kingdom, Australia etc. The first section of the book reviews the applicability of existing theories in understanding the body image experiences of individuals of Asian descent and proposes a new theoretical framework that emphasizes both decolonizing and intersectional perspectives in conceptualizing Asian body image. The next section examines the current state of research on body image among Asians, Asian Americans and Asian diasporas around the globe including attending to some seriously neglected specific demographic and social identity groups. The last section explores mental health and psychosocial implications of body image in the aspects of mental disorders, interpersonal and social relationships and identity development. Explores the body image of Asians offering new theoretical insights to address their unique experiences globally. Focuses on underrepresented groups including Asian sexual and gender minority men advancing understanding in body image research. Examines how body image influences mental health, relationships, identity and societal aspects. *The Neuropsychology of Asian-Americans* Daryl Fujii, 2011-01-11. This volume is the first comprehensive resource to assist neuropsychologists to provide culturally competent services to Asian Americans, provide an optimal environment for test administration, interpret tests within a cultural context and give culturally sensitive feedback and recommendations. It also provides an insight of how neuropsychology is currently practiced in different Asian countries.

Prejudice, Stigma, Privilege, and Oppression Lorraine T. Benuto, Melanie P. Duckworth, Akihiko Masuda, William O'Donohue, 2020-05-11. This book addresses the ways in which clinical psychologists ought to conceptualize and respond to the prejudice and oppression that their clients experience. Thus the link between prejudice and oppression to psychopathology is explored. Basic scientific information about prejudice is reviewed and the current status of the major minority groups is explored. Chapters examine the role of prejudice and oppression in institutional structures such as the Diagnostic and Statistical Manual of Mental Disorders and professional organizations. The discussion addresses ways to assess these phenomena in individual cases and how to intervene in psychotherapy. The book ventures to evaluate the status of the profession of psychology with respect to prejudice, stigmatization and oppression by critically examining evidence that the profession has responded adequately to these social problems. These issues are hard to talk about and are not well talked about in the field. This book is a push in the right direction. *Culturally Responsive Counseling with Asian American Men* William Ming Liu, Derek Kenji Iwamoto, Mark H. Chae, 2011-01-19. Asian American men represent a complex group with

distinct psychological and mental health concerns yet the current counseling literature is lacking in resources for clinicians working with this population The purpose of this text is to provide practitioners with a comprehensive overview of the current research and theory related to the important and unique issues that Asian American men experience It offers clinicians culturally responsive practical counseling techniques and strategies to help inform them on how to work effectively with this group Chapters are written by leading figures in the field and explore such topics as intergenerational conflict racism challenges associated with masculinity and fatherhood sexual orientation identity development substance abuse and career counseling Numerous clinical vignettes and case conceptualizations are included to assist clinicians who work with Asian American men and to demonstrate appropriate treatment responses
