Beyond Aphasia Therapies For Living With Communication Disabilities Winslow Editions:

Beyond Aphasia Carole Pound, Susie Parr, Jayne Lindsay, Celia Woolf, 2018-10-24 This book focuses explicitly on therapeutic techniques developed from a social model approach to disability and learning to live with difference. It describes theories, activities, and methods of implementation developed from the work of Connect with people with long term aphasia. Theoretical discussion runs alongside practical ideas for therapy and evaluation, case studies, and commentaries from the authors regarding the method and means of implementation. Synthesises theory and practice in this new area of service delivery. Its non-impairment led focus of the therapies means that it has wide appeal to therapists, health service professionals, and volunteers who work with people with chronic disabilities affecting lifestyle and communication.

Group Treatment of Neurogenic Communication Disorders: the Expert Clinician's Approach, Second Edition Roberta J. Elman, 2006-11 This book is the definitive reference guide to clinical models as well as specific clinical techniques for providing client centered group treatment for aphasia and other neurogenic communication disorders. It provides a wealth of insight and global perspective in the provision of care in aphasia and related conditions for students, clinicians, and professionals in other health related disciplines. Key Features: The book is designed for day to day use for busy practitioners. Expert clinicians are the authors of each of the chapters giving the reader authoritative guidance. Each chapter follows the same basic outline for quick and accessible reference. Tables, charts, and summaries enhance the text.

Challenging Aphasia Therapies Judith Felson Duchan, Sally Byng, 2004-08-02 Challenging Aphasia Therapies presents an entirely new approach to thinking on the subject of aphasia therapy by liberating it from traditional models. This is achieved through a process of reflection in which many assumptions previously taken for granted are challenged and reassessed. Internationally renowned experts successfully demonstrate the benefits of learning about aphasia therapy through the process of engaging in it. Topics covered include the role of context, culture, and conversation in shaping and directing aphasia therapy; the ethical issues that arise from the current tensions between market driven health care industries and the moral commitment to their client welfare; the value of therapy. Contributors challenge the common notion of successful therapy as solely performance related; the potential and competent use of humour in aphasia therapy. The identification of the strengths and limitations of clinical models and the focus on relevant directions for therapy will be of interest to practising clinicians as well as anyone involved in study or research in speech and language therapy.

Quality of Life in Aphasia Linda Worrall, Audrey Holland, 2003 This special issue of the journal *Aphasiology* is dedicated to the topic of quality of life in aphasia.

Counseling in Communication Disorders Audrey L. Holland, Ryan L. Nelson, 2018-06-29 Now in its third edition *Counseling in Communication Disorders: A Wellness Perspective* continues to be an essential and admired text for counseling related courses in graduate speech language pathology and audiology programs. The counseling skills introduced in this book are based on the model of positive psychology, a rapidly growing branch of psychology that focuses on mental health and well being and how to achieve and

maintain these states By incorporating the key elements of positive psychology into clinical practice clinicians can more effectively help patients live productively and successfully with their communication disorders The authors offer examples exercises and specific techniques for working with individuals and their families across the spectrum of communication disorders from infancy through end of life needs In addition they also feature one on one activities and model workshop examples for use in teaching counseling strategies to groups or classes New to the Third Edition Expanded information on issues concerning cultural diversity especially in regard to children and their families Expanded strategies for recognizing and growing strengths in family dynamics including early intervention Extended considerations for counseling individuals and families when deterioration of abilities is expected More in depth information on the unique problems of persons with mild cognitive impairment primary progressive aphasia and chronic traumatic encephalopathy Updates on findings and issues in Positive Psychology Information introducing clinicians and students to Posttraumatic Growth and its relevance to the field Updated counseling literature throughout With its updates and additions *Counseling in Communication Disorders A Wellness Perspective* Third Edition is destined to remain a popular resource and teaching tool for developing speech language pathologists and audiologists *Narrative Approaches to Brain Injury* David Todd, Stephen

Weatherhead, 2018-03-21 This book brings together narrative approaches and brain injury rehabilitation in a manner that fosters an understanding of the natural fit between the two We live our lives by narratives and stories and brain injury can affect those narratives at many levels with far reaching effects Understanding held narratives is as important as understanding the functional profile of the injury This book explores ways to create a space for personal stories to emerge and change whilst balancing theory with practical application Despite the emphasis of this book on the compatibility of narrative approaches to supporting people following brain injury it also illustrates the potential for contributing to significant change in the current narratives of brain injury This book takes a philosophically different approach to many current neuro rehabilitation topics and has the potential to make a big impact It also challenges the reader to question their own position but does so in an engaging manner which makes it difficult to put down **Participatory Design & Health Information**

Technology Ann Bygholm, Pernille Bertelsen, Christian Nohr, 2017-02-15 Health Information Technology HIT continues to increase in importance as a component of healthcare provision but designing HIT is complex The creation of cooperative learning processes for future HIT users is not a simple task The importance of engaging end users such as health professionals patients and relatives in the design process is widely acknowledged and Participatory Design PD is the primary discipline for directly involving people in the technological design process Exploring the application of PD in HIT is crucial to all those involved in engaging end users in HIT design and in collaboration with a wide range of people a broad repertoire of methods and techniques to apply PD within multiple domains has been established This book Participatory Design participatory reflections participatory business and participatory inspiration The book will be of interest to researchers

students health professionals IT designers and managers who work with or are interested in supporting participation in the design of HIT

The Accent Method Kirsten Thyme, 2001 This accessible manual outlines the Accent Method technique It offers an effective and rational voice treatment with measurable results in the shortest possible time It is based on a sound theoretical background in phonetics and voice physiology and combines the most effective elements of various voice therapies It is a well researched training system for the treatment of voice and speech disorders covering exercises for relaxation respiration and voice including the transfer from voice exercises to reading and oral communication It aims to obtain the best verbal communication possible for each individual It includes a CD with voice and drum exercises

The South African Journal of Communication Disorders, 2006

The Brain Injury Rehabilitation Workbook Rachel Winson, Barbara A. Wilson, Andrew Bateman, 2016-10-10 Grounded in a holistic approach this state of the art workbook provides tools and resources for supporting clients with nonprogressive brain injury Effective strategies are described for building skills and teaching compensatory strategies in such areas as attention memory executive functions mood and communication Particular attention is given to facilitating the challenging process of identity change following a life altering injury In a large size format for easy photocopying the volume features 93 reproducible client handouts Purchasers get access to a Web page where they can download and print the reproducible materials
