Why We Work

Barry Schwartz, 2015-09-01 An eye opening groundbreaking tour of the purpose of work in our lives showing how work operates in our culture and how you can find your own path to happiness in the workplace Why do we work The question seems so simple But Professor Barry Schwartz proves that the answer is surprising complex and urgent We ve long been taught that the reason we work is primarily for a paycheck In fact we ve shaped much of the infrastructure of our society to accommodate this belief Then why are so many people dissatisfied with their work despite healthy compensation And why do so many people find immense fulfillment and satisfaction through menial jobs Schwartz explores why so many believe that the goal for working should be to earn money how we arrived to believe that paying workers more leads to better work and why this has made our society confused unhappy and has established a dangerously misguided system Through fascinating studies and compelling anecdotes this book dispels this myth Schwartz takes us through hospitals and hair salons auto plants and boardrooms showing workers in all walks of life showcasing the trends and patterns that lead to happiness in the workplace Ultimately Schwartz proves that the root of what drives us to do good work can rarely be incentivized and that the cause of bad work is often an attempt to do just that How did we get to this tangled place How do we change the way we work With great insight and wisdom Schwartz shows us how to take our first steps toward understanding and empowering us all to find great work

The Basecamp Manifesto

Terence C. Young, 2024-10-23 It is often said that it is lonely at the top But this loneliness can be dangerous not only to the leader but also to the led It turns out we hold our environments as we are held If we are not held in a caring and daring fashion it shows up in how we live and lead The Basecamp Manifesto is a

formative work on developing and sustaining leadership skills Here Terence Young outlines the development of a changed narrative around leading organizations Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak Young has created a framework for leadership that relies on developing a basecamp of companions Like the familiar basecamps of extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks a leader's basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership Young presents the gifts that current and future leaders should find in a secure base greater clarity in the sense making process enhancement of agility in navigating dynamic situations building endurance to face challenges and fostering generativity for greater productivity and innovation in one's life quest The Basecamp Manifesto is written for leaders of all organizations whether for profit or nonprofit Whether a business leader an educational leader a political leader a religious leader or other society facing leader all leaders face particular and specific challenges in leadership How do I lead and navigate with those in my circle through a world of increasing volatility uncertainty complexity and ambiguity For the sake of those you lead Young's groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered

Ward, Alexandra K. Perry, 2023-09-06 The world cries out for ethical leaders We expect the best but we are often left profoundly disappointed While leadership programs may feature ethics as part of their curriculum the approach is often either simplistic or overly esoteric This second edition addresses this scarcity of resources for training ethical leaders providing a primer of several ethical frameworks accompanied by extended examples to help inform decision making It also addresses several leadership models that claim an ethical component The new edition also includes new chapters on the ethics of care and toxic leadership and new case studies for all chapters By providing a consistent case analysis based on the Five Components of Leadership Model readers benefit from a comprehensive approach to understanding ethical leadership

Excellence, Innovation and Ingenuity in Honors Education Graeme Harper, 2019-04-05 How does the pursuit of an undergraduate honors education support excellence innovation and ingenuity. This book offers examples of these things as they occur in honors colleges and programs throughout the USA. However it additionally throws light on questions of how education generally and in this case particularly higher education impacts on what we can do to contribute to our pool of human knowledge to support individual and social aspiration to empower creativity and invention and indeed to make positive individual and communal futures through education. In many ways the writers here explore the contribution of honors education to the world beyond honors. Equally they are investigating honors education from the inside and contemplating how they can make this aspect of education fundamentally a home of innovative and ingenious practices. The range of discussion in this book stretches from considering active engagement with the global to enhancing approaches to leadership and leadership cultivation and from applying distinctive styles of thinking to embracing and developing outstanding types of community partnerships. The volume discusses what those in honors education are doing to live up to the promise the ideal of honors popularizes and is said to exemplify.
