Journalism Under Fire Stephen Gillers, 2018-08-07 A healthy democracy requires vigorous uncompromising investigative journalism But today the free press faces a daunting set of challenges in the face of harsh criticism from powerful politicians and the threat of lawsuits from wealthy individuals media institutions are confronted by an uncertain financial future and stymied by a judicial philosophy that takes a narrow view of the protections that the Constitution affords reporters In *Journalism Under Fire* Stephen Gillers proposes a bold set of legal and policy changes that can overcome these obstacles to protect and support the work of journalists Gillers argues that law and public policy must strengthen the freedom of the press including protection for news gathering and confidential sources He analyzes the First Amendment s Press Clause drawing on older Supreme Court cases and recent dissenting opinions to argue for greater press freedom than the Supreme Court is today willing to recognize Beyond the First Amendment *Journalism Under Fire* advocates policies that facilitate and support the free press as a public good Gillers proposes legislation to create a publicly funded National Endowment for Investigative Reporting modeled on the national endowments for the arts and for the humanities improvements to the Freedom of Information Act and a national anti SLAPP law a statute to protect media organizations from frivolous lawsuits to help journalists and the press defend themselves in court Gillers weaves together questions of journalistic practice law and policy into a program that can ensure a future for investigative reporting and its role in our democracy

Kuypers, 2023-11-15 A Future for the News What s Wrong with Mainstream News Media in America and How to Fix It investigates and offers solutions to significant problems with the productive functioning of the mainstream news media Criticism of the mainstream news media is almost a national pastime in America and widespread polling shows credibility ratings of journalists among the lowest of any institution in America almost as low as that of Congress The institution of news media faces a plummeting morale of journalists loss of readership loss of viewers to competing non traditional venues for news and so on Moving from these problems to realistic solutions this book serves as an instruction manual of sorts with each chapter offering a pathway of improvement This collection brings together academics and news industry professionals with individual chapters taking a specific area of concern and making a case for particular solutions to the problems presented Solutions range from ones

designed for individual reporters to consider to those that target newsrooms the institution of journalism and news consuming audiences Together they aim to help a beleaguered institution restore itself as a fully functioning asset of the American Republic Contributors Abe Aamidor Brent Baker Alex Christy Jennifer Cox Michelle Ferrier John Gable Katherine Haenschen Michael Horning Michael Max Knorpp Jim A Kuypers Serena Miller Cayce Myers Stephen D Perry Soo Young Shin Benjamin Voth Adriel Warren The Best Business Writing 2014 Dean Starkman,Martha M. Hamilton,Ryan Chittum,2014-12-16 This anthology of the year s best investigative business writing explores the secret dealings of an elite Wall Street society and uncovers the crimes and misadventures of the young founder of Silk Road the wildly successful online illegal goods site known as the eBay of vice It reveals how the Fed dithered while the financial crisis unfolded and explains why the leaders of a two trillion dollar bond fund went to war with each other Articles from the best newspapers and magazines in the country delve into how junk food companies use science to get you to eat more and how Amazon dodges the tax man how J Crew revitalized itself by transforming its creative process and Russell Brand went deep on media and marketing after his GQ Awards speech went haywire Best Business Writing 2014 includes provocative essays on the NFL s cover ups and corporate welfare Silicon Valley s ultralibertarian culture and the feminist critique of Sheryl Sandberg s career advice book for women Lean In Stories about toast T shirt making and the slow death of the funeral business show the best writers can find worthy tales in even the most mundane subjects **The Watchdog Still Barks** Beth Knobel,2018-03-27 Perhaps no other function of a free press is as important as the watchdog role its ability to monitor the work of the government It is easier for politicians to get away with abusing power wasting public funds and making poor decisions if the press is not shining its light with what is termed accountability reporting This need has become especially clear in recent months as the American press has come under virulent direct attack for carrying out its watchdog duties Upending the traditional media narrative that watchdog accountability journalism is in a long dismaying decline The Watchdog Still Barks presents a study of how this most important form of journalism came of age in the digital era at American newspapers Although the American newspaper industry contracted significantly during the 1990s and 2000s Fordham professor and former CBS News producer Beth Knobel illustrates through empirical data how the amount of deep watchdog reporting on the newspapers studied front pages generally increased over time despite shrinking circulations low advertising revenue and pressure to produce the kind of soft news that plays well on social media Based on the first content analysis to focus specifically on accountability journalism nationally The Watchdog Still Barks examines the front pages of nine newspapers located across the United States to paint a broad portrait of how public service journalism has changed since 1991 as the advent of the Internet transformed journalism This portrait of the modern newspaper industry shows how papers of varying sizes and ownership structures around the country marshaled resources for accountability reporting despite significant financial and technological challenges The Watchdog Still Barks includes original interviews with editors who explain why

they are staking their papers futures on the one thing that American newspapers still do better than any other segment of the media watchdog and investigative reporting
