Beyond The Killing Fields War Writings:

Beyond the Killing Fields Sydney Hillel Schanberg, 2010 The first collection of Sydney Schanberg's work to be published [Beyond the Killing Fields](#) Sydney Hillel Schanberg, 2010 Warfare defence [To Overthrow the World](#) Sean McMeekin, 2024-09-12 Three decades since the Soviet Union's collapse prompted Francis Fukuyama to proclaim the End of History things look different Russia may no longer be Communist but Stalin is more admired there than at any time since his death in 1953 The United States has bled power and prestige in uncanny parallel with China's rise in economic strength and global influence not least in the US itself Liberal democratic capitalism seems moribund while Chinese Communism assimilates the world How and why did this happen In his sweeping history Sean McMeekin investigates the evolution of Communism from the seductive ideal of a classless society into the ruling doctrine of tyrannical regimes From Marx's writings to the global resurgence of Communism in the twenty first century McMeekin argues that despite the endurance of this political system it remains deeply unpopular Where it has arisen it has always arisen by force Blending narrative with cutting edge scholarship [To Overthrow the World](#) revolutionises our understanding of Communism an idea that seemingly cannot die [The Emergence of Global Maoism](#) Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change [The Emergence of Global Maoism](#) illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia *I Glanced Out the Window and Saw the Edge of the World* Catherine Halsall, 2020-07-08 This book is about WAR not the causes and results not the planning and the campaigns not the artillery and the bombs It is about the heinous crimes committed by the combatants the horrifying experiences of civilians the devastation of cities and villages the killing and the dying the glory leading to revulsion and guilt and the assimilation of suffering that either ends in death or in the triumph of the soul It looks at the struggle of the church to remain faithful and the servants of the church who seek to bring sense and solace to the victims It discusses antisemitism racism and war itself

from biblical perspectives It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples the mental instability of the survivors and the loss and grief of those on the home front In war how can men and women carry out the actions that they do As Viktor Frankl writes After all man is that being who has invented the gas chambers of Auschwitz however he is also that being who has entered those gas chambers upright with the Lord's Prayer or the Shema Yisrael on his lips **AP Foreign Correspondents in Action** Giovanna Dell'Orto,2016 Through extended portraits of AP foreign correspondents this book documents the practices and constraints shaping international news since World War II *The Colonel who Would Not Repent* Salil Tripathi,2016-01-01 I J K L M N O P Q R S T U V W X Y Z

American Journalism and International Relations Giovanna Dell'Orto,2013-03-29 American Journalism and International Relations argues that the American press disengagement from world affairs has critical repercussions for American foreign policy Giovanna Dell Orto shows that discourses created circulated and maintained through the media mold opinions about the world and shape foreign policy parameters This book is a history of U S foreign correspondence from the 1840s to the present relying on more than 2 000 news articles and twenty major world events from the 1848 European revolutions to the Mumbai terror attacks in 2008 Americans perceptions of other nations combined with pervasive and enduring understandings of the United States role in global politics act as constraints on policies Dell Orto finds that reductive media discourse as seen during the 1967 War in the Middle East or Afghanistan in the 1980s has a negative effect on policy whereas correspondence grounded in events such as during the Japanese attack on Shanghai in the 1930s or the dissolution of the Soviet Union in 1991 fosters effective leadership and realistic assessments *One Long Night* Andrea Pitzer,2017-09-19 A groundbreaking haunting and profoundly moving history of modernity's greatest tragedy concentration camps For over 100 years at least one concentration camp has existed somewhere on Earth First used as battlefield strategy camps have evolved with each passing decade in the scope of their effects and the savage practicality with which governments have employed them Even in the twenty first century as we continue to reckon with the magnitude and horror of the Holocaust history tells us we have broken our own solemn promise of never again In this harrowing work based on archival records and interviews during travel to four continents Andrea Pitzer reveals for the first time the chronological and geopolitical history of concentration camps Beginning with 1890s Cuba she pinpoints concentration camps around the world and across decades From the Philippines and Southern Africa in the early twentieth century to the Soviet Gulag and detention camps in China and North Korea during the Cold War camp systems have been used as tools for civilian relocation and political repression Often justified as a measure to protect a nation or even the interned groups themselves camps have instead served as brutal and dehumanizing sites that have claimed the lives of millions Drawing from exclusive testimony landmark historical scholarship and stunning research Andrea Pitzer unearths the roots of this appalling phenomenon exploring and exposing the staggering toll of the camps our greatest atrocities the extraordinary survivors and even the
