Beyond Walled City Colonial Exclusion:

Beyond the Walled City Guadalupe Garcia, 2016 Once one of the most important port cities in the New World Havana was a model for the planning and construction of other colonial cities This book tells the story of how Havana was conceived built and managed and explores the relationship between colonial empire and urbanization in the Americas Guadalupe Garcia shows how the policing of urban life and public space by imperial authorities from the sixteenth century onward was explicitly centered on politics of racial exclusion and social control She illustrates the importance of colonial ideologies in the production of urban space and the centrality of race and racial exclusion as an organizing ideology of urban life in Havana Beyond the Walled City connects colonial urban practices to contemporary debates on urbanization the policing of public spaces and the urban dislocation of black and ethnic populations across the region Provided by publisher *Sea and Land* Philip D. Morgan, John Robert McNeill, Matthew Mulcahy, Stuart B. Schwartz, 2022 The first comprehensive environmental synthesis of the Caribbean region written by eminent scholars of the topic **Black Freedom and Education in**

Nineteenth-Century Cuba Raquel Alicia Otheguy, 2025-01-14 In this book Raquel Otheguy argues that Afro descended teachers and activists were central to the development of a national education system in Cuba and influenced the trajectory of public school systems in the broader Americas **Social Struggle and Civil Society in Nineteenth Century Cuba**

Richard E. Morris, 2023-03-19 This collection of research from Cuba scholars explores key conflicts episodes currents and tensions that helped shape Cuba as a modern independent nation Cuba in the nineteenth century was characterized by social struggle Slavery Spanish colonial rule and racial tension permeated every corner of Cuban life from urban dwelling to house of charity from sugarcane field to tobacco vega from seaport to railway and furnished a lively spectacle for the privileged foreigner gazing upon Cuba from afar Chapters discuss topics including slavery gendered forced labor indentured labor agricultural economics industrial development newspaper and print culture and the origins of the Cuba Threat The volume links key aspects of Cuba s history such as social conflict and economic underdevelopment to present a detailed analysis of Cuban civil society in the 1800s Social Struggle and Civil Society in Nineteenth Century Cuba appeals to general readers and scholars in a range of disciplines including history women s studies economics architectural preservation media studies and literature **Patchwork Freedoms** Adriana Chira, 2022-02-17 In nineteenth century Santiago de Cuba the island of Cuba s

radical cradle Afro descendant peasants forged freedom and devised their own formative path to emancipation Drawing on understudied archives this pathbreaking work unearths a new history of Black rural geography and popular legalism and offers a new framework for thinking about nineteenth century Black freedom Santiago de Cuba s Afro descendant peasantries did not rely on liberal abolitionist ideologies as a primary reference point in their struggle for rights Instead they negotiated their freedom and land piecemeal through colonial legal frameworks that allowed for local custom and manumission While gradually wearing down the institution of slavery through litigation and self purchase they reimagined

colonial racial systems before Cuba's intellectuals had their say. Long before residents of Cuba protested for national independence and island-wide emancipation in 1868, it was Santiago's Afro-descendant peasants who gradually and invisibly laid the groundwork for emancipation. Havana Susan Fitzgerald, 2022-05-01 Following the crisis of the Special Period, Cuba promoted urban agriculture throughout its towns and cities to address food sovereignty and security. Through the adoption of state-recommended design strategies, these gardens have become places of social and economic exchange throughout Cuba. This book maps the lived experiences surrounding three urban farms in Havana to construct a deeper understanding about the everyday life of this city. Using narratives and drawings, this research uncovers these sites as places where education, intimacy, entrepreneurship, wellbeing, and culture are interwoven alongside food production. Henri Lefebvre's latent work on rhythm analysis is used as a research method to capture the everyday beats particular to Havana surrounding these sites. This book maps the many ways in which these spaces shift power away from the state to become places that are co-created by the community to serve as a crucial hinge point between the ongoing collapse of the city and its future wellbeing. New Approaches to the Comparative Abolition in the Atlantic and Indian Oceans Jesús Sanjurjo, Manuel Barcia, 2023-05-08 Taking the theme of abolition as its point of departure, this book builds on the significant growth in scholarship on unfree labour in the Atlantic and Indian Ocean worlds during the past two decades. The essays included here revisit some of the persistent problems posed by the traditional comparative literature on slavery and indentured labour and identify new and exciting areas for future research. This book is intended for a broad audience, including scholars, students, as well as for a general readership who have specific interests in the history of the slave trade, slavery, and imperial history. It was originally published as a special issue of the journal *Atlantic Studies*. Global Currents: Bourdieu in the City Loïc Wacquant, 2022-12-16 Building on three decades of comparative research on marginality, ethnicity, and penalty in the postindustrial metropolis, Loïc Wacquant offers a novel interpretation of Pierre Bourdieu as urban theorist. He invites us to explore the city through what he calls the trialectic of symbolic space, the mental categories through which we perceive and organize the world, social space, the distribution of capital in its different forms, and physical space, the built environment. On this reading, Bourdieu's topological sociology gives us the tools both to energize and also to challenge the canon of urban studies and to redraw their theoretical landscape. Compact and incisive, *Bourdieu in the City* will be of interest to students and scholars in sociology, anthropology, geography, urban studies, urban planning, architecture, and social theory. *The Routledge Companion to African Diaspora Art History* Eddie Chambers, 2024-10-31 This is an authoritative companion that is global in scope, recognizing the presence of African Diaspora artists across the world. It is a bold and broad reframing of this neglected branch of art history, challenging dominant presumptions about the field. Diaspora pertains to the global scattering or dispersal of, in this instance, African peoples, as well as their patterns of movement from the mid-twentieth century onwards. Chapters in this book emphasize the importance of cross-fertilization, interconnectedness, and intersectionality in the framing

of African Diaspora art history The book stresses the complexities of artists born within or living and working within the African continent alongside the complexities of Africa born artists who have migrated to other parts of the world The group of international contributors emphasizes and accentuates the interplay between for example Caribbean art and African Diaspora art or Latin American art and African Diaspora art or Black British art and African Diaspora art The book will be of interest to scholars and students working in art history the various branches of African studies African American studies African Diaspora studies Caribbean studies and Latin American studies **The Work of Empire** Justin F.

Jackson, 2025-05-01 In 1898 on the eve of the Spanish American War the US Army seemed minuscule and ill equipped for global conflict Yet over the next fifteen years its soldiers defeated Spain and pacified nationalist insurgencies in both Cuba and the Philippines Despite their lack of experience in colonial administration American troops also ruled and transformed the daily lives of the 8 million people who inhabited these tropical islands How was this relatively small and inexperienced army able to wage wars in Cuba and the Philippines and occupy them American soldiers depended on tens of thousands of Cubans and Filipinos both for military operations and civil government Whether compelled to labor for free or voluntarily working for wages Cubans and Filipinos suspended between civilian and soldier status enabled the making of a new US overseas empire by interpreting guiding building selling sex and many other kinds of work for American troops In *The Work of Empire* Justin Jackson reveals how their labor forged the politics economics and culture of American colonialism in Cuba and the Philippines and left an enduring imprint on these islands and the US Army itself Jackson offers new ways to understand the rise of American military might and how it influenced a globalizing imperial world
