## **Achieving An Aids Transition Achieving An Aids Transition:**

**Achieving an AIDS Transition** A. Mead Over, 2011 Five million people in poor countries are receiving AIDS treatment but international AIDS policy is still in crisis Donors are giving less than they had been even though infections continue unabated and the number of people dependent on treatment rises each year This book proposes a feasible medium term objective for AIDS policy achieving an AIDS transition that is keeping AIDS deaths down by sustaining treatment while pushing new infections even lower so that the total number of people living with HIV AIDS begins to decline How Through a new incentive driven strategy to improve HIV prevention and a sustained effort to get the most from AIDS treatment

**Routledge Handbook on the Politics of Global Health** Richard Parker, Jonathan García, 2018-12-07 In the early twenty first century key public health issues and challenges have taken centre stage on the global scene and health has been placed at the heart of our collective aspirations for human development and well being But significant debate exists not only about the causes but also about the possible solutions for nearly all of the most important global health challenges Competing visions of the values and perspectives that should underlie global health policies have emerged ranging from an emphasis on cost effectiveness and resource constraints on one extreme to new calls for health and human rights and renewed calls for health and social justice on the other The role of different intergovernmental agencies bilateral or unilateral donors public or private institutions and initiatives has increasingly been called into question whilst the spread of neoliberal policies and programmes and existing international trade regimes and intellectual property rights are deeply implicated in relation to global health responses This volume critically evaluates how the global health industry has evolved and how the interests of diverse political and economic stakeholders are shaping the context of a rapidly changing institutional landscape Bringing together leading authors from across the world the Handbook's eight sections explore Critical perspectives on global health Globalisation neoliberalism and health systems The changing shape of global health governance Development assistance and the politics of global health Scale up scale down and the sustainability of global health programmes Intellectual property rights trade relations and global health Humanitarian emergencies and global health politics Human rights social justice and global health The Routledge Handbook on the Politics of Global Health addresses both the emerging issues and conceptualisations of the political strategies policy making processes and global governance of global health along with expanding upon and highlighting the critical priorities in this rapidly evolving field It provides an authoritative overview for students practitioners researchers and policymakers working in or concerned with the politics of public health around the globe
