Bulletin of the Georgia Academy of Science Georgia Academy of Science,1969 **Comparative Guide to Science and Engineering Programs** James Cass,Max Birnbaum,1971 A key focus is to examine how is humanitarian intervention legitimate in present diplomatic dialogues In exploring how far there has been a change of norm in the society of states in the 1990s the book defends the broad based constructivist claim that state actions will be constrained if they cannot be legitimated and that new norms enable new practices but do not determine these The book concludes by considering how far contemporary practices of humanitarian intervention support a new solidarism and how far this resolves the traditional conflict between order and justice in international society **BOOK JACKET** **Medical Books and Serials in Print, 1979** R.
