Archiving Websites A Practical Guide For Information Management Professionals

Luciana Duranti, Patricia C. Franks

Archiving Websites A Practical Guide For Information Management Professionals:

Archiving Websites Adrian Brown, 2006-06 This important book is the first to offer practical guidance to information management professionals seeking to implement web archiving programmes of their own. It is essential reading for those who need to collect and preserve specific elements of the web from national domains or individual subject areas to an organization's own website. Drawing on the author's experience of managing the National Archives web archiving programme together with lessons learned from other international initiatives, this book provides a comprehensive overview of current best practice. It assumes only a basic understanding of IT and web technologies but also offers much to more technically oriented readers. Contents include the development of web archiving selection policies, collection methods, quality assurance, preservation, delivery to user, optimizing websites for archiving, legislation, managing a web archiving programme, future trends. Readership: Written to address audiences from the whole spectrum of information management sectors, this book is vital reading for three types of reader: policy makers who need to make decisions about establishing or developing an institutional web archiving programme; information management professionals who may be required to implement a web archiving programme; and website owners and web masters who may be required to facilitate archiving of their own websites.

The Complete Guide to Personal Digital Archiving Brianna H. Marshall, 2018-12-13 Scholars and scrapbookers alike need your help with saving their most important digital content. But how do you translate your professional knowledge as a librarian or archivist into practical skills that novices can apply to their own projects? *The Complete Guide to Personal Archiving* will show you the way, helping you break down archival concepts and best practices into teachable solutions for your patrons' projects. Whether it's a researcher needing to cull their most important email correspondence or an empty nester transferring home movies and photographs to more easily shared and mixed digital formats, this book will show you how to offer assistance, providing explanations of common terms in plain language, quick non-technical solutions to frequent patron requests, a look at the 3-2-1 approach to backing up files, guidance on how to archive Facebook posts and other social media, methods for capturing analog video from obsolete physical carriers like MiniDV, proven workflows for public-facing transfer stations as used at the Washington D.C. Memory Lab and the Queens Library, mobile scanning unit talking points to help seniors make proactive decisions about their digital estates, perspectives on balancing core library values with the business goals of Google, Amazon, Facebook and other dominant platforms, and additional resources for digging deep into personal digital archiving. Featuring expert contributors working in a variety of contexts, this resource will help you help your patrons take charge of their personal materials.

Web History Niels Brügger, 2010 This is the first edited volume to put the emerging field of web history on the agenda of internet research. Sixteen original chapters investigate how the use of the web has developed in the realm of web culture at large as well as how the organization of web industries and old media institutions on the web have changed. A number of fundamental theoretical and methodological questions related to doing

web history are also examined The collection aims to explore some of the possible ways of approaching the web of the past based on the assumption that the past is not only important for historical purposes but because it must be taken into consideration in order to fully understand the web of the present and the web of the future The book includes a foreword by Charles Ess and contributions from Kirsten Foot Steven Schneider Alexander Halavais Ken Hillis and more **The SAGE Handbook of Web History** Niels Brügger, Ian Milligan, 2018-12-10 The Web has been with us now for almost 25 years An integral part of our social cultural and political lives new media is simply not that new anymore Despite the rapidly expanding archives of information at our disposal and the recent growth of interest in web history as a field of research the information available to us still far outstrips our understanding of how to interpret it The SAGE Handbook of Web History marks the first comprehensive review of this subject to date Its editors emphasise two main different forms of study the use of the web as an historical resource and the web as an object of study in its own right Bringing together all the existing knowledge of the field with an interdisciplinary focus and an international scope this is an incomparable resource for researchers and students alike Part One The Web and Historiography Part Two Theoretical and Methodological Reflections Part Three Technical and Structural Dimensions of Web History Part Four Platforms on the Web Part Five Web History and Users some Case Studies Part Six The Roads Ahead **Library and Information Science** Michael F. Bemis, 2014-03-03

This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field [A Chronology of Librarianship, 1960-2000](#) Jeffrey M. Wilhite, 2009-07-01 A Chronology of Librarianship 1960 2000 continues the work of Josephine Smith in her original Chronology of Librarianship Scarecrow 1968 It updates and completes her work up to 2000 paying special attention to the progress made on technological and international fronts that have significantly altered the role and function of the librarian especially the rise of the internet in the 1990s The ramifications of this new level of global connectedness and of the new role of the librarian are of primary concern for author Jeffrey M Wilhite This book covers all areas of library literature that inform the history of librarianship and ranges over multiple continents Its broad scope lends itself to wide use by scholars and students of library history and library literature The chronology is presented in a dictionary format and

separated into decades It is complemented by a comprehensive bibliography and name index Business Planning for Digital Libraries Mel Collier,2010 This book brings together international experience of business planning for digital libraries the business case planning processes costs and benefits practice and standards and comparison with the traditional library Although there is a vast literature already on other aspects of digital libraries business planning is a subject that until now has not been systematically integrated in a book Digital libraries are being created not only by traditional libraries but also by museums archives media organizations and any institution concerned with managing scientific and cultural information Business Planning for Digital Libraries is designed for practitioners in the cultural and scientific sectors for students in information sciences and cultural management and in particular for people engaged in managing digital libraries and repositories in electronic publishing and e learning and in teaching and studying in these fields Encyclopedia of Archival Writers, 1515 - 2015 Luciana Duranti,Patricia C. Franks,2019-04-26 The Encyclopedia of Archival Writers 1515 2015 is a reference work that includes the profiles of authors of literature about records and archives in the Western world who have shaped the records and archives field over a span of 500 years The 144 archival writers from 13 countries who are included in this volume were selected by an international advisory board on the basis of their impact on the records and archives profession and discipline the presence of their publications in educational programs reading lists and the frequency of reference to their work Among the writers included in this volume are Albertino Barisone of Padua 1587 1667 Sir Hilary Jenkinson of England 1882 1961 Adolf Brenneke of Germany 1875 1946 Theodore R Schellenberg of the United States 1903 1970 Robert Henri Bautier of France 1922 2010 Terry Cook of Canada 1947 2014 Vicenta Cort s Alonso of Spain 1925 Eric Ketelaar of the Netherlands 1944 Aurelio Tanodi of Argentina 1914 2011 Ian Maclean of Australia 1919 2003 and Verne Harris of South Africa 1958 Arranged in alphabetical order each entry includes a biography intellectual contributions and a brief essential bibliography A total of 113 educators professionals and students in the records and archives field 55 of whom are also profiled in this Encyclopedia contributed to this volume There is no other book in any language that focuses on the life and work of authors of records and archives literature In fact there is not easily available information on such writers Thus most entries involved quite a bit of research on dead writers and interviews with the living ones Several living writers supported this work by accepting to author their own entry The Handbook of Internet Studies Mia Consalvo,Charles Ess,2011-05-09 The Handbook of Internet Studies HANDBOOKS IN COMMUNICATION AND MEDIA Highly recommended CHOICE A state of the art collection that represents and celebrates the diversity of theoretical and disciplinary approaches marking this brave new field A new must have reference book for Internet studies Caroline Haythornthwaite University of Illinois This indispensable volume reflects the complexity of Internet studies indeed the Internet itself by bringing together a diverse set of voices geographies disciplines and arguments It is not only an important resource for practitioners but will also spark the curiosity of those on the edges of the field including humanists social scientists and engineers alike Michael

Zimmer University of Wisconsin A comprehensive and useful volume that will appeal to students teachers and researchers I highly recommend it to those who have been following the field since its emergence in the 1990s as well as to those new to the field Steve Jones University of Illinois at Chicago This handbook is landmark documenting that Internet studies have now come of age Niels Ole Finnemann Aarhus University To fully understand the impact and significance of the Internet it is essential to consider its historical societal and cultural contexts This handbook presents a wide range of original essays by established scholars in the field of Internet studies exploring the role of the Internet in modern societies and the continuing development of its academic study

Developing and Maintaining Practical Archives Gregory S. Hunter, 2020-04-14 Since its original publication Hunter's manual has been not only a rich and ready reference tool but also a practical resource for solving problems Catholic Library World and no text has served as a better overview of the field of archives Newly revised and updated to more thoroughly address our increasingly digital world including integration of digital records and audiovisual records into each chapter it remains the clearest and most comprehensive guide to the discipline Former editor of *American Archivist* the journal of the Society of American Archivists SAA Hunter covers such keystone topics as a history of archives including the roles of historical societies and local history collections in libraries new sections on community archives diversity and inclusion conducting a survey and starting an archival program selection appraisal acquisition accessioning and deaccessioning important points of copyright privacy and ethics arrangement of archival collections with a discussion of new theories description including DACS EAD and tools such as ArchivesSpace access reference and outreach with a look at how recent innovations in finding aids can help researchers preservation including guidance on how to handle rare books maps architectural records and artifacts digital records addressing new and popular methods of storage and preservation of email social media image files webpages Word documents spreadsheets databases and media files disaster planning security and theft prevention metrics assessment establishing employee procedures and policies working with interns and volunteers and other managerial duties public relations and marketing from social media and the Web to advocacy and professional guidelines and codes such as the newly developed SAA Statement of Core Values of Archivists Providing in depth coverage of both theory and practice this manual is essential for archivists at all levels of experience and of all backgrounds
