Assume The Physician Modern Medicines Catch 22:

The Hartwell Approach to Climate Policy Steve Rayner, Mark Caine, 2014-09-19 The Hartwell Approach to Climate Policy presents a powerful critique of mainstream climate change policies and details a set of pragmatic alternatives based on the Hartwell Group's collective writings from 1988-2010. Drawing on a rich history of heterodox but increasingly accepted views on climate change policy, this book brings together in a single volume a series of key related texts that define the Hartwell critique of conventional climate change policies and the Hartwell approach to building more inclusive pragmatic alternatives. This book tells of the story of how and why conventional climate policy has failed and drawing from lessons learned how it can be renovated. It does so by weaving together three strands of analysis. First, it highlights why the mainstream approach as embodied by the Kyoto Protocol has failed to produce real-world reductions in greenhouse gas emissions and delayed real meaningful progress on climate change. Second, it explores the underlying political, economic, and technological factors which form the boundary conditions for climate change policy but which are often ignored by policy makers and advocates. Finally, it lays out a novel approach to climate change guided centrally by the goal of uplifting human dignity worldwide and the recognition that this can only succeed if pursued pragmatically, economically, and with democratic legitimacy. With contributions from leading scholars in the field, this work presents a original critique of climate policy and a constructive primer for how to improve it.

Digital adaptation kit for postnatal care World Health Organization, 2025-07-19 Digital Adaptation Kits (DAKs) are part of WHO's SMART guidelines initiative. This aims to ensure that the content of WHO's evidence-based guidelines is accurately reflected in the digital systems being used at country level. The DAKs provide software, neutral operational and structured documentation based on WHO recommendations related to clinical care, health systems, and use of data to systematically and transparently inform the design of digital systems. Standard components of each DAK include: 1. linked health interventions and recommendations; 2. generic personas; 3. user scenarios; 4. generic business processes and workflows; 5. core data elements mapped to standard terminology codes (e.g. the international classification of diseases); 6. decision support; 7. programme indicators; and 8. functional and non-functional requirements. This DAK focuses on PNC and aims to provide a common language across various audiences: maternal, newborn, infant, and child health, and other programme managers, software developers, and implementers of digital systems to ensure a common understanding of the appropriate health information content within a defined health programme area as a mechanism to catalyse the effective use of these digital systems.

Modern Medical Science William Cowper Conant, 1894 Threats Without Enemies Gwyn Prins, 2013-11-05 The world is moving into a new era which will be dominated by a new range of threats and a new range of priorities. Already headlines tell of storms and droughts, mass emigrations, the danger of old Soviet nuclear reactors, and the thinning ozone layer, and with the menaces of global warming, deforestation, pollution, and loss of biodiversity, the picture is likely to get bleaker. Unlike traditional threats, these are not made deliberately and standard

military responses are usually inappropriate They are threats without enemies and they present quite new and fundamental challenges to the international community which has to find new methods and institutions as well as the resolve to tackle them In this book eminent experts describe the new threats and the scale of the dangers which they present and set out the political military and institutional changes needed Gwyn Prins is Director of the Global Security Programme at the University of Cambridge He is author of *Top guns and Toxic Whales* also published by Earthscan Progress For A Small Planet Three topics dominate discussions of the global environment pollution the consequences of the affluent running ever faster through finite resources and the growing tensions between rich and poor as a third of humanity continues to live and die in desperate poverty In this exceptional book Barbara Ward co author with Rene Dubos of the bestselling *Only One Earth* refused to see these processes as inevitable It describes new technologies for recycling waste for energy for getting more for less linking them to ordinary people s working lives It also suggests a strategy for meeting the basic needs of the disadvantaged and shows how the vast inequalities between countries can be reduced This perceptive survey of policies outlines a planetary bargain between the world s nations that would guarantee individual freedom from poverty and keep our shared biosphere in good working order Originally published in 1993 Modern Madness Douglas LaBier, 2016-02-02 An acclaimed exploration of the ways in which success within our career culture can produce hidden emotional and value conflicts for men and women Sheds new light on the path to success and personal fulfillment in today s workplace **Social Problems** Ronald Wayne Smith, Andrea Fontana, Kathleen J.
