Better Capitalism Renewing The Entrepreneurial Strength Of The American Economy:

Better Capitalism Robert E. Litan, Carl J. Schramm, 2012-09-25 In the wake of the Great Recession and America's listless recovery from it, economists, policymakers, and media pundits have argued at length about what has gone wrong with the American capitalist system. Even so, few constructive remedies have emerged. This welcome book cuts through the chatter and offers a detailed, nonideological and practical blueprint to restore the vigor of the American economy. *Better Capitalism* extends and significantly expands on the insights of the authors' widely praised previous book *Good Capitalism, Bad Capitalism*, co-written with William Baumol. In *Better Capitalism*, Robert E. Litan and Carl J. Schramm focus on the huge but often unrecognized importance of entrepreneurship to overall economic growth. They explain how changes in seemingly unrelated policy arenas—immigration, education, finance, and federal support of university research—can accelerate America's recovery from recession and spur the nation's rate of growth in output while raising living standards. The authors also outline an innovative energy strategy and discuss the potential benefits of government belt-tightening steps. Sounding an optimistic note when gloomy predictions are the norm, Litan and Schramm show that with wise and informed policymaking, the American entrepreneurial engine can rally and the true potential of the U.S. economy can be unlocked. **Better**

Capitalism Robert E. Litan, Carl J. Schramm, 2012-09-25 Shows that with wise and informed policymaking, the American entrepreneurial engine can rally and the true potential of the economy can be unlocked. *Resolved* Robert Litan, 2020-10-06 Adopting a simple education reform to restore civil discourse and transform American society. In this era of extreme political polarization, it's tempting to believe nothing can be done to heal a nation that is so obviously divided and led by dysfunctional politicians. But there is a relatively simple and powerful way to begin the healing and, at the same time, prepare the next generations of leaders for the rigorous demands of a constantly changing economy and society. The solution offered by this intriguing book is for schools across the country to focus on developing in students the skills of successful debaters. These are the skills so clearly lacking in contemporary society: listening and persuading through civil discourse backed by fact-based evidence and reason. *Resolved* explains how one simple educational reform can help address the nation's political divide and, at the same time, help ensure that today's young people will actually enjoy learning and thus will have the necessary skills to lead productive and economically rewarding lives. The book offers practical ideas about a positive future for parents, educators, state legislators, business leaders—in fact, anyone interested in how debate-centered education can fundamentally change the country for the better. **Burn the Business Plan** Carl J. Schramm, 2018-01-16 Business

startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America: this thoughtful study of how businesses really start, grow, and prosper dispels quite a few business myths along the way. Publishers Weekly Carl Schramm, the man described by *The Economist* as The Evangelist of Entrepreneurship, has written a myth-busting guide packed with tools and techniques to help you get your big

idea off the ground Schramm believes that entrepreneurship has been misrepresented by the media business books university programs and MBA courses For example despite the emphasis on the business plan in most business schools some of the most successful companies in history Apple Microsoft Google Facebook and hundreds of others achieved success before they ever had a business plan Burn the Business Plan punctures the myth of the cool tech savvy twenty something entrepreneur with nothing to lose and venture capital to burn In fact most people who start businesses are juggling careers and mortgages just like you The average entrepreneur is actually thirty nine years old and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started Filled with stories of successful entrepreneurs who drew on real life experience rather than academic coursework Burn the Business Plan is the guide to starting and running a business that will actually work for the rest of us
