The Architectural Capriccio Dr Lucien Steil, 2014-01-17 Bringing together leading writers and practicing architects including Jean Dethier David Mayernik Massimo Scolari Robert Adam David Watkin and Leon Krier this volume provides a kaleidoscopic multilayered exploration of the Architectural Capriccio It not only explains the phenomena within a historical context but moreover demonstrates its contemporary validity and appropriateness as a holistic design methodology an inspiring pictorial strategy an efficient rendering technique and an optimal didactic tool The book shows and comments on a wide range of historic masterworks and highlights contemporary artists and architects excelling in a modern updated refreshed and original tradition of the Capriccio

Pride in Modesty Michelangelo Sabatino, 2011-05-21 Following Italy's unification in 1861 architects artists politicians and literati engaged in volatile debates over the pursuit of national and regional identity Growing industrialization and urbanization across the country contrasted with the rediscovery of traditionally built forms and objects created by the agrarian peasantry **Pride in Modesty** argues that these ordinary often anonymous everyday things inspired and transformed Italian art and architecture from the 1920s through the 1970s Through in depth examinations of texts drawings and buildings Michelangelo Sabatino finds that the folk traditions of the pre industrial countryside have provided formal practical and poetic inspiration directly affecting both design and construction practices over a period of sixty years and a number of different political regimes This surprising continuity allows Sabatino to reject the division of Italian history into sharply delimited periods such as Fascist Interwar and Democratic Postwar and to instead emphasize the long continuous process that transformed pastoral and urban ideals into a new modernist Italy
