Beyond Civilization Humanitys Next Great Adventure

Thomas Lombardo

Beyond Civilization Humanity's Next Great Adventure:

Beyond Civilization Daniel Quinn, 2000-11-07 In *Beyond Civilization* Daniel Quinn thinks the unthinkable. We all know there's no one right way to build a bicycle, no one right way to design an automobile, no one right way to make a pair of shoes, but we're convinced that there must be only one right way to live, and the one we have is it, no matter what. *Beyond Civilization* makes practical sense of the vision of Daniel Quinn's best-selling novel *Ishmael*. Examining ancient civilizations such as the Maya and the Olmec, as well as modern-day microcosms of alternative living like circus societies, Quinn guides us on a quest for a new model for society, one that is forward-thinking and encourages diversity instead of suppressing it. *Beyond Civilization* is not about a New World Order, but a New Personal World Order that would allow people to assert control over their own destiny and grant them the freedom to create their own way of life, right now, not in some distant utopian future.

Beyond Civilization Daniel Quinn, 2009-02-04 In *Beyond Civilization* Daniel Quinn thinks the unthinkable. We all know there's no one right way to build a bicycle, no one right way to design an automobile, no one right way to make a pair of shoes, but we're convinced that there must be only one right way to live, and the one we have is it, no matter what. *Beyond Civilization* makes practical sense of the vision of Daniel Quinn's best-selling novel *Ishmael*. Examining ancient civilizations such as the Maya and the Olmec, as well as modern-day microcosms of alternative living like circus societies, Quinn guides us on a quest for a new model for society, one that is forward-thinking and encourages diversity instead of suppressing it. *Beyond Civilization* is not about a New World Order, but a New Personal World Order that would allow people to assert control over their own destiny and grant them the freedom to create their own way of life, right now, not in some distant utopian future.

Cosmism Yoda Oraiah, 2022-06-09 Standing on the riches of humanity's holy books and traditions, drawing on our wealth of scientific and technological knowledge, and injecting his own creativity and humour, Yoda Oraiah presents his readers with a potential new religion, *Cosmism*. *Cosmism: A New Hope for Humanity* is a thorough exploration of human belief and creed through history, accompanied by an exhaustive detailing of a new way, a new understanding, and an inspired approach to life. *Cosmism* is a Space Age philosophical model and belief system that is built upon the aspects of intelligence and consciousness present in the universe. It sees the entire Cosmos as God, and humans as part and parcel of this great, orderly system we seem to live in. *Cosmists* believe that since we are part of this Cosmos, we have the capacity to influence its life and evolution, and our relationship with this greatest system is something important to recognize and cherish in our lives. Hard-hitting, thought-provoking, and entertaining, *Cosmism: A New Hope for Humanity* will challenge readers to explore their place in the Cosmos and their relationship with its other inhabitants. *The Evolution of Future Consciousness* Thomas Lombardo, 2006-06-23 Are there any unique qualities that humans possess that make us special within the world of nature? Since the beginnings of recorded history, we have pondered this question. What if many of humanity's highest qualities and unique achievements, such as technology, civilization, morals, self-consciousness, freedom of choice, religion, and science, are all

built upon a single distinctive human capacity It may be that our highly evolved mental power to envision and think about the future is at the core of our greatest accomplishments and most unique human attributes In *The Evolution of Future Consciousness* psychologist and futurist Tom Lombardo examines the human ability to be conscious of the future to create ideas images goals and plans about the future to think about these mental creations and use them in directing ones actions and ones life In the opening chapter he looks at the psychology of future consciousness and its values and benefits as well as ways to enhance this human ability Subsequent chapters describe the emergence of future consciousness in pre historic times and how it was critical in the development of love and bonding the family tools and human aggression and hunting the central importance of the future and time in early myths religions and classical philosophy and the rise of modern futurist thinking covering the Renaissance the Scientific Revolution the Western Enlightenment and the Romantic counter reaction The book concludes with Darwin and how the theory of evolution revolutionized humanitys conception of both the past and the future In its companion volume *Contemporary Futurist Thought* Tom Lombardo completes his survey of the historical development of future consciousness discussing significant ideas and approaches to the future in the last century including science fiction future studies and an extensive array of recent theories and paradigms of the future

The Ethical Society

William T. Carruthers, 2021-08-19 How is it that we know we are headed for destruction as a species and yet are unable to effect the necessary changes needed for survival We know from history that our current thinking and values will not lead to a peaceful sustainable future It is more crucial now than ever that we learn to break the cycle so that we can create a global community that balances diversity and individuality with integration and harmony The answer lies in how we think We are trapped in social systems based on power structures designed to keep us divided in antagonistic and non viable behaviors We have divorced how we understand the world through science with how we find meaning in our lives through religion alienating us from the world and each other To overcome these challenges we need to focus our thinking on the global community by giving priority to universal ethical values With ethical priority we can shift power interests from a tribal to a human perspective and reconnect understanding with meaning We can reduce alienation and improve harmony around the world In *The Ethical Society* William Carruthers provides the roadmap for us to finally achieve that peaceful sustainable world

Jim Dator: A Noticer in Time Jim Dator, 2019-08-19 This book features a selection of the published writings and public presentations of Jim Dator Most of the chapters are directly concerned with futures studies and ideas about the futures The topic covers many disciplines and subjects It is also concerned with many different parts of the world even Mars In addition a few of the earlier papers contained here are about more conventional topics in politics and religion The collection spans a more than 50 year period of thought reflection and instruction In particular the papers examine six main topics These include meditations on the very nature of future studies visions of preferred futures ideas about alternative futures and details on future theories and methods Coverage also considers such specific topics as AI and robots the

environment food culture energy families future generations and more Overall these papers help readers gain insight into what it takes to weave together alternative images of the future in useful ways They also reveal cross disciplinary patterns in key fields of human endeavor that will help readers better understand trends and emerging issues **Psychic Children** Peggy Day,Susan Gale,2004-11 The late twentieth and early twenty first centuries have heralded the birth of many special children who exhibit unique sensitivities and abilities This book shows how these children can be recognized and nurtured as the special people they truly are Global Heating and the Australian Far Right Imogen Richards,Gearóid Brinn,Callum Jones,2023-12-01 Global Heating and the Australian Far Right examines the environmental politics of far right actors and movements in Australia exploring their broader political context and responses to climate change The book traces the development of far right pseudo environmentalism and territorial politics from colonial genocide and Australian nationalism to extreme right political violence Through a critical analysis of news and social media it reveals how denialist and resignatory attitudes towards climate change operate alongside extreme right accelerationism in a wider Australian political context characterised by reactionary fossil fuel politics and neoliberal New Right climate change agendas The authors scrutinise the manipulation of environmental politics by contemporary Australian far and extreme right actors in cross national online media They also assess the political ideological context of the contemporary far right addressing intergovernmental approaches to security threats connected to the far right and climate change and the emergence of radical environmentalist traditions in New Catastrophism literature The conclusion synthesises key insights analysing the mainstreaming of ethnonationalist and authoritarian responses to global heating and potential future trajectories of far right movements exploiting the climate crisis It also emphasises the necessity for radical political alternatives to counter the far right s exploitation of climate change This book will be of interest to researchers of climate change the far right neoliberal capitalism extremism and Australian politics **Wild Earth, Wild Soul (2nd Edition)** Sky Otter,2025-04-29 Imagine a nature based culture so alive and so connected spreading like wildfire This book is the match Wild Earth, Wild Soul Bill Pfeiffer,2013-06-28 Humankind has the capacity and know how to create Earth honoring cultures in a new way for new times Through tapping into ancestral memories taking what s best from the human potential movement and collaborating with present day indigenous peoples we can find our way home Practicing the key ingredients of a lasting culture is an ecstatic way to live This book shows you how
