Beyond 1989 Re Reading German Literature Since 1945 Modern German Studies:

Beyond 1989 Keith Bullivant, 1997 With the opening up of the East in the autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era

Beyond 1989 K. Bullivant, 1997-09-01 With the fall of the Berlin Wall in November 1989 four decades of separation seemed to have been brought to an end In the literary arena as in many others this seemed to be the surprising but ultimately logical end to the situation in which after the extreme separation of the two Germanies literatures during most of the period up to 1980 an increasing closeness could be observed during the 1980s as relations between the two German states normalized With the opening up of the East in the Autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era This volume examines these claims and other aspects of literary life in the two Germanies since 1945 with the hindsight born of unification in 1990 as well as looking at certain aspects of developments since the fall of the Wall when as on East German put it in 1996 rapprochement came to an end

Searching for a New German Identity Theresa M. Ganter, 2008 Theresa M Ganter investigates Heiner Muller s use of the Geschichtsdrama as a tool in his search for post World War II and post reunification German identity in Germania Tod in Berlin 1956 1971 and Germania 3 Gespenster am Toten Mann 1996 respectively

The Power of Intellectuals in Contemporary Germany Michael Geyer, 2001-12-17 The German Democratic Republic has become the subject of novels memoirs and films and the backdrop for general debates over the power of intellectuals in contemporary media and society This collection considers the demise of the GDR and its impact on the place of intellectuals

After Unity Konrad Jarausch, 1997-09-01 The unification of Germany is the most important change in Central Europe in the last four decades Understanding this rapid and unforeseen development has raised old fears as well as inspired new hopes In order to make sense out of the bewildering process and to help both expert and lay readers understand the changes and consequences an American historian and a German social scientist put together this collection of central texts on German unification the first of its kind An invaluable reference tool

Power Shift in Germany David P. Conradt, Gerald R. Kleinfeld, Christian S  , 2000 Germany's landmark 1998 election saw for the first time in the Republic's fifty year history an incumbent Chancellor and his entire government replaced. In this collection fourteen distinguished scholars from both sides of the Atlantic have come together to give the first detailed scholarly account of this historic event. From a variety of perspectives the essays based on in depth interviews explore the election candidates parties and issues and places them within the context of the Federal Republic's history the end of the Bonn Republic and the beginning of the Berlin Republic. Special chapters focus on the growing importance of women in electoral politics voting behavior and the influence of the media and the significance of the election for the European Union. Based on in depth interviews with political leaders and extensive field research this book is ideally suited for specialists in German and European politics and the interested reader who wants far more depth of coverage than the main stream media can provide.

Gender and Germanness Patricia Herminghouse, Magda Mueller, 1998-02-01 Cultural Studies have been preoccupied with questions of national identity and cultural representations. At the same time feminist studies have insisted upon the entanglement of gender with issues of nation class and ethnicity. Developments in the wake of German unification demand a reassessment of the nexus of gender Germanness and nationhood. The contributors to this volume pursue these strands of the cultural debate in German history literature visual arts and language over a period of three hundred years in sections devoted to History and the Canon Visual Culture Germany and Her Others and Language and Power. Contributors: L. Adelson A. Taylor Allen K. Bauer R. Berman B. Byg M. Denman E. Frederiksen S. Friedrichsmeyer E. Kaufmann L. Koepnick B. Kosta S. Lefko A. M. O. Sickey B. Mennel H. M. M. ller B. Shedding Light on the Darkness Nancy Ann Lauckner, Miriam Jokiniemi, 2000 Increasingly German Studies programs include courses on the Holocaust but suitable course materials are often difficult to find. Teachers in higher education will therefore very much welcome this volume that examines and reflects both the practical and theoretical aspects of teaching about the Holocaust. Though designed primarily by and for North American Germanists and German Studies specialists this book will prove no less useful for teachers in other countries and associated disciplines. It presents and describes successful Holocaust related courses that have been developed and taught at U.S. and Canadian colleges and universities demonstrating the depth breadth and variety of such offerings while remaining mindful of the instructor's special moral responsibilities. Reflecting as it does the innovative Holocaust pedagogy in North American German and German Studies this collection serves the needs of educators who wish to revise or update their existing Holocaust courses and of those who are seeking guidance ideas and resources to enable them to develop their first Holocaust course or unit.

A History of Women's Writing in Germany, Austria and Switzerland Jo Catling, 2000-03-23 This volume makes the wide ranging work of German women writers visible to a wider audience. It is the first work in English to provide a chronological introduction to and overview of women's writing in German speaking countries from the Middle Ages to the present day.
