Beyond El Barrio Everyday Life In Latino America:

Beyond El Barrio Gina M. Pérez, Frank Guridy, Adrian Burgos, 2010-10-24 Freighted with meaning el barrio is both place and metaphor for Latino populations in the United States Though it has symbolized both marginalization and robust and empowered communities the construct of el barrio has often reproduced static understandings of Latino life they fail to account for recent demographic shifts in urban centers such as New York Chicago Miami and Los Angeles and in areas outside of these historic communities Beyond El Barrio features new scholarship that critically interrogates how Latinos are portrayed in media public policy and popular culture as well as the material conditions in which different Latino o groups build meaningful communities both within and across national affiliations Drawing from history media studies cultural studies and anthropology the contributors illustrate how despite the hypervisibility of Latinos and Latin American immigrants in recent political debates and popular culture the daily lives of America s new majority minority remain largely invisible and mischaracterized Taken together these essays provide analyses that not only defy stubborn stereotypes but also present novel narratives of Latina o communities that do not fit within recognizable categories In this way this book helps us to move beyond el barrio beyond stereotype and stigmatizing tropes as well as nostalgic and uncritical portraits of complex and heterogeneous range of Latina o lives

Non-Sovereign Futures Yarimar Bonilla, 2015-10-06 As an overseas department of France Guadeloupe is one of a handful of non independent societies in the Caribbean that seem like political exceptions or even paradoxes in our current postcolonial era In *Non Sovereign Futures* Yarimar Bonilla wrestles with the conceptual arsenal of political modernity challenging contemporary notions of freedom sovereignty nationalism and revolution in order to recast Guadeloupe not as a problematically non sovereign site but as a place that can unsettle how we think of sovereignty itself Through a deep ethnography of Guadeloupean labor activism Bonilla examines how Caribbean political actors navigate the conflicting norms and desires produced by the modernist project of postcolonial sovereignty Exploring the political and historical imaginaries of activist communities she examines their attempts to forge new visions for the future by reconfiguring narratives of the past especially the histories of colonialism and slavery Drawing from nearly a decade of ethnographic research she shows that political participation even in failed movements has social impacts beyond simple material or economic gains Ultimately she uses the cases of Guadeloupe and the Caribbean at large to offer a more sophisticated conception of the possibilities of sovereignty in the postcolonial era

The Heart of the Mission Cary Cordova, 2017-05-04 An illustrated in depth examintion of the avant garde and politically radical Latino art of San Francisco s Mission District In *The Heart of the Mission* Cary Cordova combines urban political and art history to examine how the Mission District a longtime bohemian enclave in San Francisco has served as an important place for an influential and largely ignored Latino arts movement from the 1960s to the present Well before the anointment of the Mission School by art world arbiters at the dawn of the twenty first century Latino artists writers poets playwrights performers and filmmakers made the

Mission their home and their muse The Mission home to Chileans Cubans Guatemalans Mexican Americans Nicaraguans Puerto Ricans and Salvadorans never represented a single Latino identity In tracing the experiences of a diverse group of Latino artists from the 1940s to the turn of the century Cordova connects wide ranging aesthetics to a variety of social movements and activist interventions The book begins with the history of the Latin Quarter in the 1940s and the subsequent cultivation of the Beat counterculture in the 1950s demonstrating how these decades laid the groundwork for the artistic and political renaissance that followed Using oral histories visual culture and archival research she analyzes the Latin jazz scene of the 1940s Latino involvement in the avant garde of the 1950s the Chicano movement and Third World movements of the 1960s the community mural movement of the 1970s the transnational liberation movements in Nicaragua and El Salvador and the AIDS activism of the 1980s Through these different historical frames Cordova links the creation of Latino art with a flowering of Latino politics

Latino City Llana Barber, 2017-03-08 Latino City explores the transformation of Lawrence Massachusetts into New England's first Latino majority city Like many industrial cities Lawrence entered a downward economic spiral in the decades after World War II due to deindustrialization and suburbanization The arrival of tens of thousands of Puerto Ricans and Dominicans in the late twentieth century brought new life to the struggling city but settling in Lawrence was fraught with challenges Facing hostility from their neighbors exclusion from local governance inadequate city services and limited job prospects Latinos fought and organized for the right to make a home in the city In this book Llana Barber interweaves the histories of urban crisis in U S cities and imperial migration from Latin America Pushed to migrate by political and economic circumstances shaped by the long history of U S intervention in Latin America poor and working class Latinos then had to reckon with the segregation joblessness disinvestment and profound stigma that plagued U S cities during the crisis era particularly in the Rust Belt For many Puerto Ricans and Dominicans there was no American Dream awaiting them in Lawrence instead Latinos struggled to build lives for themselves in the ruins of industrial America

Abstract Barrios Johana Londoño, 2020-08-10 In Abstract Barrios Johana Londoño examines how Latinized urban landscapes are made palatable for white Americans Such Latinized urban landscapes she observes especially appear when whites feel threatened by concentrations of Latinx populations commonly known as barrios Drawing on archival research interviews and visual analysis of barrio built environments Londoño shows how over the past seventy years urban planners architects designers policy makers business owners and other brokers took abstracted elements from barrio design such as spatial layouts or bright colors to safely Latinize cities and manage a long standing urban crisis of Latinx belonging The built environments that resulted ranged from idealized notions of authentic Puerto Rican culture in the interior design of New York City's public housing in the 1950s which sought to diminish concerns over Puerto Rican settlement to the Fiesta Marketplace in downtown Santa Ana California built to counteract white flight in the 1980s Ultimately Londoño demonstrates that abstracted barrio culture and aesthetics sustain the economic and cultural viability of normalized white and middle class
