Affluence And Influence Affluence And Influence:

Affluence and Influence Martin Gilens, 2012-07-22 Why policymaking in the United States privileges the rich over the poor Can a country be a democracy if its government only responds to the preferences of the rich In an ideal democracy all citizens should have equal influence on government policy but as this book demonstrates America's policymakers respond almost exclusively to the preferences of the economically advantaged Affluence and Influence definitively explores how political inequality in the United States has evolved over the last several decades and how this growing disparity has been shaped by interest groups parties and elections With sharp analysis and an impressive range of data Martin Gilens looks at thousands of proposed policy changes and the degree of support for each among poor middle class and affluent Americans His findings are staggering when preferences of low or middle income Americans diverge from those of the affluent there is virtually no relationship between policy outcomes and the desires of less advantaged groups In contrast affluent Americans preferences exhibit a substantial relationship with policy outcomes whether their preferences are shared by lower income groups or not Gilens shows that representational inequality is spread widely across different policy domains and time periods Yet Gilens also shows that under specific circumstances the preferences of the middle class and to a lesser extent the poor do seem to matter In particular impending elections especially presidential elections and an even partisan division in Congress mitigate representational inequality and boost responsiveness to the preferences of the broader public At a time when economic and political inequality in the United States only continues to rise Affluence and Influence raises important questions about whether American democracy is truly responding to the needs of all its citizens

Missional Moves Rob Wegner, Jack Magruder, 2012-09-25 From saved souls to saved wholes from transactional to transformational this book describes fifteen paradigm shifts in how gospel driven Christian leaders are thinking about churches and ministry in today's world The church was never designed to be a fortress for the righteous but a flood of revolutionaries bringing the Good News of the Kingdom to broken lives and broken communities in a broken world Today millions of Christians are awakening to the holism or wholeness of the gospel call expanding their understanding of church from an institution to a movement Recognizing the Church's past missteps and re-envisioning its role in modern society Missional Moves will fundamentally alter your understanding of the church and how its mission is lived out Rob Wegner and Jack Magruder are church founders and Christian thought leaders who will walk you through three distinct categories of changes that today's churches have to understand in order to have the greatest positive impact The paradigm shift of our missional imagination The centralized shift of our local church mission field The decentralized shift of the global family of Christ If this calling toward movement and transformation is to be realized it will require some earth shaking shifts in our concept of the evangelistic mission Missional Moves This book provides a plan of action for your church that will empower you to unleash each member on a mission both locally and globally

Post-Punk Perception Edmund Wong, 2013-07-27 Growing up in Singapore in the 80s

has been challenging I didn't know much about life or economy I didn't know what I want to do apart from playing I know I had to study and get a job In school we had to write composition about our profession when we grow up I had never wanted to be a philosopher let alone writing about social philosophy It is just that growing up with a single parent is tough It is tougher when she is uneducated and I had to learn most things by myself After my National Service I decided to further studies That was when I was exposed to philosophy and psychology in the UK After graduation in 1999 with a degree in Electronics I came back home to resume my National Service I disrupt it and had about 2 months left The life in UK exposed me to something that I did not notice when growing up in Singapore I find local social scene unsatisfactory They are Confucians Muslims Christians freethinkers and humanists Most time they are preoccupied with how to earn more money Religion does not give me the fulfillment that it promised In addition most were based on Singaporeans interpretation of the Bible and Buddhism's dharma Most times I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it It end up like what Pope Francis referred to as the cult of money Organised religion involves more fear mongering than cultivating an inner grace and peace Hence this book is about how I relate an ancient thinker's ethics Aristotle to the present day I find Aristotle's ethics to most suit my needs as a man and lover It does not pretend to be more than what it seek the golden mean It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues I also find other philosophers French or not particularly insightful and thought provoking They offer me explanation and exploration on subjects like love sex and death Freudian psychoanalysis are also very penetrating in their findings and insights Moreover I needed some contemporary psychological theory not in depth psychoanalysis to back Aristotle's model of ethics intellectual and moral virtues Hence the psychological background of my book I got acquainted with these psychological theories when I was preparing myself to be a financial consultant I later found out more about them and they became useful in my work and life Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in Because everyone of us are affected by the social sciences politics economics and sociology This book will I hope allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia My wish is simply to share what I enjoy doing apart from creating useful ideas to improve the world Through my book I hope to make others understand religion science and philosophy and how they play an increasingly integral part in the Asian century
