Africans And Their History Second Revised Edition:

Africans and Their History Joseph E. Harris, 1998-08-01 Africans and Their History chronicles in fascinating detail African history from prehistoric times through the end of the 20th century Africa has witnessed the birth of many important developments in history Human evolution including the use of fire food production via plant cultivation and animal domestication as well as the creation of sophisticated tools and hunting weapons from iron took place in Africa Other historical events such as the slave trade which played a critical role in Western economic power the rise of Islam as one of the world's dominant religions and colonization and struggles for independence occurred on African soil Originally published in 1972 this second revised edition provides a concise and authoritative overview of the diverse peoples and societies of Africa and includes events through the end of the 20th century including the emergence of a free South Africa and its landmark enactment of a constitution that recognizes even more rights than the American constitution

A History of the African American Church Carter G. Woodson, 2017-10-26 Carter G Woodson's classic text on the emergence of African American churches chronicling their story out of the eighteenth century evangelical revivals and their transformations through the nineteenth and early twentieth century is important for reasons other than black church history With the exception of recent books such as C Eric Lincoln and Lawrence H Mamiya's *The Black Church in the African American Experience* Woodson's text remains one of the best overviews of the topic But Woodson's text is also a significant account of the ways in which Christian based instruction and socialization shaped not only class divisions and vetted leadership among but also shaped who what became the Negro Colored Black African American For even the Father of Black History as Woodson is often called could not escape the spell casted by the prevailing Christian ideology of his time and in the earlier periods he investigated In fact Woodson viewed Christianity as a rather difficult religion for the undeveloped mind of the enslaved African to grasp and never questioned this Christianity or probed the African basis of rituals and ideas among the enslaved and the emancipated Instead Woodson extols the virtues of Christianity among the converted and the men who established the various churches in African descended communities including the educative social economic and political roles played by these institutions after the U S Civil War There is little here about those who adhered to spiritual or religious practices and ideas that remained as close to Africa as possible For Woodson then the ministry was one of the highest callings and occupations to which African American male leaders could aspire and from which they accrued prominence within their communities at a time when religious instruction was the primary schooling option available These educated Negroes as Woodson called them were now armed with the Christian religion Christian names and a dream to partner in an inferior position with the dominant values and views of white society which all created sectarianism and eventually two divergent visions among African descended peoples in North America Nineteenth century converts split along class lines and urbanized elites developed a Christian distaste for their kinfolk who continued to engage in African based rituals and

practices such as the ring shout By the first quarter of the nineteenth century these elites began to seek equal rights and full acceptance by whites thus the need to distance themselves from things African and despite the fact that a few church organizations kept the term African as part of their name The majority of the African based community saw racism and its insidiousness as deeply rooted in their fight for human rights while the elites viewed slavery and discrimination as obstacles which prevented their particular progress rather than a collective advancement Since Woodson writing in the first quarter of the twentieth century had access to individuals who were either enslaved or children of the enslaved his account is still therefore relevant as both a source and as a story that captures some of the foregoing processes in African and African American history

Introduction to the History of African Civilization: Precolonial Africa C. Magbaily Fyle,1999

Introduction to the History of African Civilization explores the major issues dominating African Civilization from the earliest recorded period to the eve of colonial conquest of the continent C Magbaily Fyle begins with a discussion of the myths and prejudices underlying most analyses of African issues and moves into a discussion of the origin of humanity the similarities between the classical Nile valley civilizations of Egypt Nubia Kush and Axum and the spread of Islam through African societies He portrays the systems of precolonial government and society including the role of women in governance as well as traditional trade and agricultural patterns Fyle provides a new perspective on the Islamic Jihads shifting focus from Sokoto and Macina to the Senegambia and the Upper Guinea region and a revised interpretation of the Atlantic slave trade which includes the importance of African objectors to this process He also discusses important cultural features such as the traditional African food architecture and typical structures of towns food architecture and typical structures of towns food architecture and typical structures of towns *A Short History of African Philosophy, Second Edition* Barry Hallen,2009-09-03 A Short History of African Philosophy discusses major ideas figures and schools of thought in philosophy in the African context While drawing out critical issues in the formation of African philosophy Barry Hallen focuses on recent scholarship and relevant debates that have made African philosophy critical to understanding the rich and complex cultural heritage of the continent This revised edition expands the historical perspective takes account of recent discoveries and new canonical figures highlights new discussions about gender as a cultural and philosophical phenomenon clarifies issues regarding indigenous cultures and human rights and builds on the notion that African philosophy shares methods and concerns of philosophy worldwide This short reference is an essential resource for students scholars and general readers
