Robinson, 2014 Re-Inventing Africa's Development Jong-Dae Park, 2018-12-31 This open access book analyses the development problems of sub Sahara Africa SSA from the eyes of a Korean diplomat with knowledge of the economic growth Korea has experienced in recent decades The author argues that Africa's development challenges are not due to a lack of resources but a lack of management presenting an alternative to the traditional view that Africa's problems are caused by a lack of leadership In exploring an approach based on mind set and nation building rather than unity which tends to promote individual or party interests rather than the broader country or national interests the author suggests new solutions for SSA's economic growth inspired by Korea's successful economic growth model much of which is focused on industrialisation This book will be of interest to researchers policymakers NGOs and governmental bodies in economics development and politics studying Africa's economic development and Korea's economic growth model

The Oxford Handbook of Africa and Economics: Context and concepts Célestin Monga, Justin Yifu Lin, 2015 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches

this volume explores examines and assesses economic thinking on Africa and Africa's contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists **African Perspectives on Reshaping Rural Development** Mafukata, Mavhungu Abel, Tshikolomo, Khathutshelo Alfred, 2019-11-22 Development studies in developing regions such as Southern Africa rely heavily on materials developed by Europeans with a European context European dominance in development studies emanates from the fact that the discipline was first developed by Europeans Some argue that this has led to distortions in theory and practice of development in Southern Africa This book wishes to begin Africa's expedition to develop proper material to de Westernize while Africanizing the context of the scholarship of rural development African Perspectives on Reshaping Rural Development is an essential reference source that repositions the context of rural development studies from the Western centric knowledge system into an African context in order to solve African centered problems Featuring research on topics such as food security poverty reduction and community engagement this book is ideally designed for planners researchers practitioners policymakers government officials academicians and students seeking clarity on theory and practice of development in Africa Development In Modern Africa Martin S. Shanguhya, Toyin Falola, 2019-10-08 Development in Modern Africa Past and Present Perspectives contributes to our understanding of Africa's experiences with the development process It does so by adopting a historical and contemporary analysis of this experience The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis skepticism and pessimism While not overlooking the shortcomings of development the themes in the book express an optimistic view of Africa's development experiences highlighting elements that can be tapped into to enhance the condition of African populations and their states By using case studies from precolonial colonial and postcolonial Africa contributors to the volume demonstrate that human instincts to improve material social and spiritual words are universal They are not limited to the Western world which the term and process of development are typically associated with Before and after contact with the West Africans have actively created institutions and values that they have actively employed to improve individual and community lives This innovative spirit has motivated Africans to integrate or experiment with new values and structures challenges and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community The book will be of interest to academics in the fields of history African studies and regional studies **Education and Development in Colonial and Postcolonial Africa** Damiano Matasci, Miguel Bandeira Jerónimo, Hugo Gonçalves Does, 2020-01-03 This open access edited volume offers an analysis of the entangled histories of education and development in twentieth century Africa It deals with the plurality of actors that competed and collaborated to formulate educational and developmental paradigms and projects debating their utility and purpose pondering their necessity and risk and evaluating their intended and unintended consequences in colonial and
