Charles Dickens: A Very Short Introduction Jenny Hartley, 2019-02-15 Charles Dickens is credited with creating some of the world s best known fictional characters and is widely regarded as the greatest novelist of the Victorian age Even before reading the works of Dickens many people have met him already in some form or another His characters have such vitality that they have leapt from his pages to enjoy flourishing lives of their own The Artful Dodger Miss Havisham Scrooge Fagin Mr Micawber and many many more His portrait has been in our pockets on our ten pound notes he is a national icon indeed himself a generator of what Englishness signifies In this Very Short Introduction Jenny Hartley explores the key themes running through Dickens s corpus of works and considers how they reflect his attitudes towards the harsh realities of nineteenth century society and its institutions such as the workhouses and prisons Running alongside this is Dickens s relish of the carnivalesque if there is a prison in almost every novel there is also a theatre She considers Dickens s multiple lives and careers as magazine editor for two thirds of his working life as travel writer and journalist and his work on behalf of social causes including ragged schools and fallen women She also shows how his public readings enthralled the readers he wanted to reach but also helped to kill him Finally Hartley considers what we mean when we use the term Dickensian today and how Dickens s enduring legacy marks him out as as a novelist different in kind from others ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert

Bartholomew,2020-11-10 According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today **The Oxford Handbook of Biblical Monsters** Associate Professor of Biblical Studies and Academic Dean Brandon R Grafius,Brandon R. Grafius,Adjunct Instructor in New and World Religions John W Morehead,John W. Morehead,2025 The Oxford Handbook of Biblical Monsters brings together the work of world renowned scholars in Bible theology religion and cultural studies to explore the monsters that rampage through the biblical text Essays provide in depth analysis of the Ancient Near Eastern background of these creatures explore how they have continued to live on after the biblical text and discuss how they remain impactful through art and literature today The chapters not only study where monsters came from but continually focus on what they mean and how these meanings are generated These chapters work to bridge the perspectives of traditional scholarship and more postmodern ideas of monsters as cultural and rhetorical constructions There are chapters on the Ghosts of Mesopotamia Leviathan and the Giants but also on the Monstrous Jew in the Gospels and the Monstrosity of the Crucifixion They serve both as foundational pieces of research for scholars looking to familiarize themselves with monsters and discourses of monstrosity but also as creative and provocative examinations of how these monsters generate meaning While working to summarize the research that has been done on biblical monsters up to the present day this Handbook points the way forward towards new and exciting studies in unnatural creatures and the rhetoric of horror **Defending Sin** Hans Madueme,2024-05-28 The conflict between the natural sciences and Christian theology has been going on for centuries Recent advances in the fields of evolutionary biology behavioral genetics and neuroscience have intensified this conflict particularly in relation to origins the fall and sin These debates are crucial to our understanding of human sinfulness and necessarily involve the doctrine of salvation Theistic evolutionists have labored hard to resolve these tensions between science and faith but Hans Madueme argues that the majority of their proposals do injustice both to biblical teaching and to long standing doctrines held by the mainstream Christian tradition In this major contribution to the field of science and religion Madueme demonstrates that the classical notion of sin reflected in Scripture the creeds and tradition offers the most compelling and theologically coherent account of the human condition He answers pressing challenges from the physical sciences on both methodological and substantive levels Scholars pastors students and
