Animals Real And Imagined:

Animals Real and Imagined TerryL Whitlatch,2011-02 There is no end to the diverse and unique creatures that TerryL Whitlatch creates for us with her solid knowledge of anatomy and boundless imagination Especially intriguing are the hundreds of anatomical notes that are dispersed among her sketches educating and enlightening us to the foundation of living bodies and their mechanics The publisher **Animals Real and Imagined Address Book** ,1988-07-01 **Animals in the Writings of C. S. Lewis** Michael J. Gilmour,2017-09-19 This book examines C S Lewis s writings about animals and the theological bases of his opposition to vivisection and other cruelties It argues Genesis is central to many of these ethical musings and the book s organization reflects this It treats in turn Lewis s creative approaches to the Garden of Eden humanity s dominion over the earth and the loss of paradise with all the catastrophic consequences for animals it presaged The book closes looking at Lewis s vision of a more inclusive community Though he left no comprehensive summary of his ideas the Narnia adventures and science fiction trilogy scattered poems and his popular theology inspire affection and sympathy for the nonhuman This study challenges scholars to reassess Lewis as not only a literary critic and children s author but also an animal theologian of consequence though there is much here for all fans of Mr Bultitude and Reepicheep to explore *Myself and Other Animals* Gerald Durrell,2024-12-05 A posthumous work from the beloved conservationist and naturalist Gerald Durrell to celebrate the centenary of his birth with a new foreword by HRH Princess Anne Gerald Durrell was magic SIR DAVID ATTENBOROUGH A wise genial and world encompassing book SUNDAY TIMES Fills important gaps in the biographical narrative Truly there is magic here GUARDIAN *Myself and Other Animals* is a new book mosaicked from unpublished autobiographies uncollected pieces and previously published extracts from Durrell s work and archives The result is an extraordinary journey through Durrell s life in his own words edited and introduced by his widow Lee Durrell Drawing on a memoir that Durrell started writing before he became too ill to continue it and an unfinished book from a trip to Australia in 1969 to the Great Barrier Reef Northern Territory and Queensland here is the unvarnished story of Durrell s life from touching family tributes to golden bats and pink pigeons Moving from India to England and then to the always sun lit Corfu told with dry wit and insight into our fellow animals here is the vivid finale of one of Britain s most beloved conservationists and prose stylists Funny and readable and hugely charming i One of the finest and most lyrical nature writers in English OBSERVER A moving tribute to Gerald s endeavours and achievements as a conservationist SPECTATOR **Animals, Machines, and AI** Erika Quinn,Holly Yanacek,2021-11-08 Sentient animals machines and robots abound in German literature and culture but there has been surprisingly limited scholarship on non human life forms in German studies This volume extends interdisciplinary research in emotion studies to examine non humans and the affective relationships between humans and non humans in modern German cultural history In recent years fascination with emotions developments in robotics and the burgeoning of animal studies in and beyond the academy have given rise to questions about the nature of

humanity Using sources from the life sciences literature visual art poetry philosophy and photography this collection interrogates not animal or machine emotions per se but rather uses animals and machines as lenses through which to investigate human emotions and the affective entanglements between humans and non humans The COVID 19 pandemic made us more keenly aware of the importance of both animals and new technologies in our daily lives and this volume ultimately sheds light on the centrality of non humans in the human emotional world and the possibilities that relationships with non humans offer for enriching that world Watch our talk with the editors Erika Quinn and Holly Yanacek here https://youtu.be/RBMwXah_Om8

Animals in Literary Education John Drew, 2025-09-24 This book examines the complicated place of animals in literary analysis and education and shows how an ethically engaged approach to animals representation could be pursued to challenge anthropocentrism and cultivate multispecies empathy Other species are represented in the literary education canon including farmed animals Yet the animals are typically anthropomorphized to guide students toward humanist readings and away from consideration of animals experiences or subjectivities This reproduces the idea that animals are mere objects meant to be exploited for human purposes even metaphorical and educational ones John Drew develops the term anthro allegory to capture and critique the process through which students are taught to read animal literary representations exclusively as symbolic analogues for humans and human themes The concept serves as an analytical lens for critically interrogating significant texts taught across educational levels and exposing the deeply engrained educational anthropocentrism that silences animal issues even when animals are represented Crucially Drew identifies texts and pedagogical strategies that can help cultivate a literary educational animal ethic that simultaneously encourages analytical rigour and multispecies concern

Real Animals on the Stage Teresa
