Agenda para la cuestión animal Mark Bekoff, Jessica Pierce, 2018-04-30 Todos los días aprendemos cosas nuevas y sorprendentes sobre la inteligencia y la capacidad emocional de los animales algo que solemos obviar con demasiada frecuencia Y así nos encontramos con que las ratas juegan y ríen y por consiguiente muestran empatía o que podemos saber lo que sienten las vacas si prestamos atención a sus orejas y morros A veces nosotros los seres humanos transformamos este tipo de conocimientos en compasión hacia otros animales como hemos podido ver recientemente en los casos del león Cecil o del gorila Harambe Pero en su conjunto la creciente comprensión de lo que sienten los animales no está dando como resultado que los tratemos con mayor respeto Un renombrado experto en comportamiento animal como Marc Bekoff y una destacada profesional en el campo de la biotica como Jessica Pierce exploran el mundo real de lo que experimentan cinco categorías de animales empezando por aquellos que sufren los mayores grados de falta de libertad y de elección gallinas cerdos o vacas en los sistemas de producción industrial de alimentos así como por los animales que se utilizan en los ámbitos de la experimentación y la investigación como ratones ratas gatos perros y chimpancés A continuación los autores se ocupan de los animales en los que la noción de pérdida de libertad resulta más ambigua y controvertida principalmente los ejemplares que se mantienen en zoológicos y acuarios o los animales de compañía Por último revelan al lector las inesperadas formas en que la actividad humana limita la libertad de los animales que viven en libertad en la naturaleza y abogan por un punto de vista más compasivo a la hora de enfocar el asunto de la conservación En cada uno de los casos combinan estudios científicos con relatos de animales concretos con el fin de enfrentar al lector a la maravilla de nuestros compañeros de vida así como mostrar el sufrimiento que padecen y la necesidad de un profundo cambio de paradigma que de verdad les asegure no un simple bienestar cuanto un verdadero bienestar Un libro fundamental para educar y animar a la gente a repensar cómo nuestros comportamientos y modos de vida afectan a otros animales y cómo podemos y debemos desarrollar formas más pacíficas y menos violentas de interactuar con ellos
