American Sniper Clips:

The Rage Julia Ebner, 2017-09-30 The early twenty first century has been defined by a rise in Islamist radicalisation and a concurrent rise in far right extremism This book explores the interaction between the new far right and Islamist extremists and considers the consequences for the global terror threat Julia Ebner argues that far right and Islamist extremist narratives The West is at war with Islam and Muslims are at war with the West complement each other perfectly making the two extremes rhetorical allies and building a spiralling torrent of hatred The Rage By looking at extremist movements both online and offline she shows how far right and Islamist extremists have succeeded in penetrating each other's echo chambers as a result of their mutually useful messages Based on first hand interviews this book introduces readers to the world of reciprocal radicalisation and the hotbeds of extremism that have developed with potentially disastrous consequences in the UK Europe and the US

Hearts of Darkness John Liebert, William J. Birnes, 2014-05-06 From Sandy Hook Connecticut to Aurora Colorado to Tucson Arizona this nation has been racked from coast to coast with mass shootings perpetrated by criminals with sick minds Authors Dr Liebert and Dr Birnes believe the increase in violence is an epidemic and dig deep into the causes of mental illness to determine what exactly is going on with these individuals and society as a whole and what action can be taken to slow this frightening trend toward mass violence Dr Liebert and Dr Birnes believe that many mass suicides are predictable and preventable Dr Liebert uses his extensive experience in psychopathology and criminal psychology to describe how clinicians can identify the behaviors of potential suicidal mass killers and possibly prevent their crimes if they read the warning signs when legal opportunities present themselves such as when recurrent domestic violence or psychotic communications are reported to authorities The authors also discuss the influence of media particularly violent video games and how the evolution of American culture affects suicidal mental illness With startling statistics fascinating case studies and practical no nonsense solutions the authors present a groundbreaking and compelling treatise on violence in America

Hymns for the Fallen Todd Decker, 2017-02-28 In Hymns for the Fallen Todd Decker listens closely to forty years of Hollywood combat films produced after Vietnam Ever a noisy genre post Vietnam war films have deployed music and sound to place the audience in the midst of battle and to provoke reflection on the experience of combat Considering landmark movies such as Apocalypse Now Saving Private Ryan The Thin Red Line Black Hawk Down The Hurt Locker and American Sniper as well as lesser known films Decker shows how the domain of sound an experientially rich and culturally resonant aspect of cinema not only invokes the realities of war but also shapes the American audience's engagement with soldiers and veterans as flesh and blood representatives of the nation Hymns for the Fallen explores all three elements of film sound dialogue sound effects music and considers how expressive and formal choices in the soundtrack have turned the serious war film into a patriotic ritual enacted in the commercial space of the cinema
