Management of Diabetic Complications Georgi Abraham, Jothydev Kesavadev, Priyanka Govindan, Nanditha Arun, Suneeta Teckchandani, 2024-10-16 Diabetic complications which occur both acutely and on a chronic basis are an enormous challenge facing doctors at every level of care. There needs to be more knowledge which is compiled into a textbook and is unavailable for reference, taking this into account to provide clinical care to address challenges to family physicians, nurses, diabetologists, subspecialty physicians, surgeons, doctors in training and telemedicine consultations. This book is a compilation of different subjects in diabetic care which can be easily referred to in diverse situations and organ involvement for appropriate management strategies. This book covers not only common complications lucidly but rare complications with a structured management plan. The book contains up-to-date information with color/black and white figures to explain the disease process and follow-up plans. The book is good teaching material for medical students, interns, nurses, and junior-level doctors and consultants. Chapters will provide a simple comprehensive complication assessment with essential highlights for example foot ulcers and skin infections with management strategies for day-to-day evaluation. It covers any disease process with skin and mucus membrane involvement with serious issues such as Stroke, Myocardial Infarction, and CKD.
