Apple Watch Knockoff:

Brand Naming Rob Meyerson, 2021-12-14 You don't have a brand whether it's for a company or a product until you have a name. The name is one of the first, longest-lasting and most important decisions in defining the identity of a company, product or service. But set against a tidal wave of trademark applications, mortifying mistranslations and disappearing dot-com availability, you won't find a good name by dumping out Scrabble tiles. *Brand Naming* details best practice methodologies, tactics and advice from the world of professional naming. You'll learn what makes a good and bad name. The step-by-step process professional namers use. How to generate hundreds of name ideas. The secrets of whittling the list down to a finalist. The most complete and detailed book about naming your brand. *Brand Naming* also includes insider anecdotes, tired trends, brand origin stories and busted myths. Whether you need a great name for a new company or product or just want to learn the secrets of professional word nerds, put down the thesaurus, not to mention Scrabble, and pick up *Brand Naming*. *The Knockoff Economy* Kal Raustiala (jurist.), Christopher Sprigman, 2012-12-13 Driven by a counterintuitive thesis that has been highlighted in both *The New Yorker* and *The New York Times*, *The Knockoff Economy* is an engrossing and highly entertaining tour through the economic sectors where piracy both rules and invigorates. *Alien and the Wedding Planner* Lizzie Lynn Lee, 2017-08-22 It was just one of those days. After catering a particularly difficult bridezilla, successful wedding planner Alana Watson can't wait for the wedding season to be over. Or at least she hopes to get a reasonable client. That is why she's excited when a pair of insanely gorgeous men come to her shop for a consultation. But no, they aren't a couple, and they ask weird questions. Things escalate when one of them decides to kidnap her and bring her to his home planet. This alien feeling in the alien's heart. Lord Ice Silverkiller is a renowned scientist on his home planet, Crimea. His planet is dying, and it seems his people don't want to procreate. His emperor orders him to find a solution. Ice and his crew then embark on the first expedition to Earth. They want to know the secret behind the humans' explosive population growth. But when he sees Alana, science is the farthest thing in his mind. And the chemical reaction between them is sizzling. Like other Crimeans, Ice is even tempered and relies on logic rather than his heart. But there's nothing logical about this crazy urge to possess this curvalicious human female named Alana. Suddenly he is hit by all kinds of feelings he's never experienced before. To make love to her. Always worry about her. To protect her and keep her safe. To make her his. Ice wonders if he finally feels what the humans called love. Because this newfound love and Alana might be the keys to save their dying race. *Knock Off* Bill Levy, 1995 After a fatal car crash, the FBI opens a probe into counterfeit consumer products. The investigation centers on a chain of discount stores selling everything from false perfumes to false auto parts. The owner of the chain reacts by contracting for the murder of the distributor to keep him from talking.
