Australia Burning Fire Ecology Policy And Management Issues:

Australia Burning Geoffrey Cary, David Lindenmayer, Stephen Dovers, 2003-11-27 The phenomenon of fire in the Australian landscape traverses many interests and disciplines At a national level there is an urgent need for the integration of both the natural and social sciences in the formulation of public policy With contributions from 30 leading experts Australia Burning draws together these issues under the themes Ecology and the environment Fire behaviour and fire regime science People and property Policy institutional arrangements and the legal framework Indigenous land and fire management The book examines some of the key questions that relate to the ecology prediction and management of fire urban planning law insurance and community issues including indigenous and non indigenous concerns It looks at what we need to know to inform public policy given the present risks and uncertainty and explores the avenues for closer integration between science policy and the community

Aboriginal Environmental Knowledge Catherine Laudine, 2016-09-17 Whilst there are popular ideas about which champion Aboriginal environmental knowledge many of these are based more on romantic notions than on any detailed understanding of what might be the content of this knowledge This book is based on a grounded and broad assessment of less well known details of Aboriginal knowledge and provides both a great deal of detail and a new assessment of rituals and practices Aboriginal environmental knowledge is examined here as an integrated source of both religious and scientific knowledge An important finding is that Aboriginal environmental knowledge also includes knowledge about education for attitudes considered appropriate for survival Though evidence for this is readily available in the literature it has not been part of current depictions of Aboriginal environmental knowledge

Burning Issues Mark Adams, Peter Attiwill, 2011-06-16 The role of fire in Australia s ecosystems and how to manage fire both for safety and for diversity

Australia's Biodiversity and Climate Change Will Steffen, Andrew A. Burbidge, Lesley Hughes, Roger Kitching, David Lindenmayer, Warren Musgrave, Mark Stafford Smith, Patricia A. Werner, 2009 Australia s unique biodiversity is under threat from a rapidly changing climate The effects of climate change are already discernible at all levels of biodiversity genes species communities and ecosystems Many of Australia s most valued and iconic natural areas the Great Barrier Reef south western Australia the Kakadu wetlands and the Australian Alps are among the most vulnerable But much more is at stake than saving iconic species or ecosystems Australia s biodiversity is fundamental to the country s national identity economy and quality of life In the face of uncertainty about specific climate scenarios ecological and management principles provide a sound basis for maximising opportunities for species to adapt communities to reorganise and ecosystems to transform while maintaining basic functions critical to human society This innovative approach to biodiversity conservation under a changing climate leads to new challenges for management policy development and institutional design This book explores these challenges building on a detailed analysis of the interactions between a changing climate and Australia s rich but threatened biodiversity Australia s Biodiversity and Climate Change is an important reference for policy makers researchers educators

students journalists environmental and conservation NGOs NRM managers and private landholders with an interest in biodiversity conservation in a rapidly changing world Publisher **The Phoenix of Natural Disasters** Kathryn Gow, Douglas Paton, 2008 This book encompasses discussions between Kathryn Gow and Douglas Paton both psychologists who have researched stress burnout trauma and recovery in natural disasters They suggest that few books have been written for health professionals and persons directly involved with leading and managing emergency teams on what constitutes resilience in individuals and groups in communities and how they differ in response and recovery The outcome is a three part book with contributors from the field research institutions emergency service sectors support agencies and the media Its main purpose is to focus on the resilience of people and communities following NDs and to educate the sectors already involved in natural disasters

Four Degrees of Global Warming Peter Christoff, 2013-10-15 At Copenhagen in December 2009 the international community agreed to limit global warming to below two degrees Celsius to avoid the worst impacts of human induced climate change However climate scientists agree that current national emissions targets collectively will still not achieve this goal Instead the ambition gap between climate science and climate policy is likely to lead to average global warming of around four degrees Celsius by or before 2100 If a Four Degree World is the de facto goal of policy we urgently need to understand what this world might look like Four Degrees of Global Warming Australia in a Hot World outlines the expected consequences of this world for Australia and its region Its contributors include many of Australia's most eminent and internationally recognized climate scientists climate policy makers and policy analysts They provide an accessible detailed dramatic and disturbing examination of the likely impacts of a Four Degree World on Australia's social economic and ecological systems The book offers policy makers politicians students and anyone interested climate change access to the most recent research on potential Australian impacts of global warming and possible responses

Community Bushfire Safety John Handmer, Katharine Haynes, 2008 Community Bushfire Safety brings together in one accessible and comprehensive volume the results of the most important community safety research being undertaken within the Australian Bushfire Cooperative Research Centre CRC Using perspectives deriving from social science economics and law it supports the increasing emphasis on community safety and the vital role it has to play in Australian bushfire management The wide range of issues covered in this volume include research into gender and vulnerability the law and its implications for public fire agency interactions the arsonists' r

Thermal Physiology Clark M. Blatteis, Nigel A. S. Taylor, Duncan Mitchell, 2022-09-22 This edited volume records the critical historical developments in thermal physiology and makes them accessible to new and senior thermal biologists and scientists in related fields Readers will discover how the discipline developed all over the world Contributions from 14 different countries recollect all prominent discoveries starting in the 18th century Like other volumes of the Perspectives in Physiology series this book reveals the people behind these discoveries The authors also set the scenes in which the research was conducted in their countries From geopolitical frameworks to new

technologies and extraordinary personalities this volume shows that scientific progress is influenced by many often unforeseeable factors The history of thermal physiology not only is a story about individual outstanding scientists but a testament for open collaboration and international comradery *Intellectual Property, Indigenous People and their Knowledge* Peter Drahos, 2014-06-12 After colonization indigenous people faced an extractive property rights regime for both their land and knowledge This book outlines that regime and how the symbolic function of international intellectual property continues today to assist states to enclose indigenous peoples knowledge Drawing on more than 200 interviews Peter Drahos examines the response of indigenous people to the colonizer s non developmental property rights The case studies reveal how they have adapted to the state s extractive order through a process of regulatory bricolage In order to create a new developmental future for themselves indigenous developmental networks have been forged high trust networks that include partnerships with science Intellectual Property Indigenous People and their Knowledge argues for a developmental intellectual property order for indigenous people based on a combination of simple rules principles and a process of regulatory convening *Booderee National Park* David Lindenmayer, Christopher MacGregor, Nick Dexter, Martin Fortescue, Esther Beaton, 2014-03-03 Booderee National Park at Jervis Bay 200km south of Sydney attracts over 450 000 visitors each year The park has many special features including dramatic wave cut platforms and sea caves some of the whitest beach sands in Australia and very high densities of native predators such as the Powerful Owl and the Diamond Python This book outlines the biology and ecology of Booderee National Park Booderee packs an extraordinary level of biodiversity into a small area roughly 6500 hectares with more than 260 species of terrestrial vertebrates and over 625 species of plants It is home to species of significant conservation concern such as the globally endangered Eastern Bristlebird for which the park is one of its last and most important strongholds The diversity of vegetation is also astounding in some parts of the park it is possible to walk from ankle high sedgelands through woodlands and forest and into subtropical rainforest in less than 150 metres Chapters are arranged around key ecological processes predators and predation herbivores and herbivory invasive plants and fire emphasising the interactions between species between vegetation and animals and between disturbances and animal and plant responses The book highlights how Booderee National Park is a functional natural ecosystem and in turn how management practices aim to improve environmental conditions and promote biodiversity conservation Richly illustrated with colour images from award winning photographer Esther Beaton this book will delight visitors to Booderee National Park as well as anyone with an interest in natural history

When people should go to the book stores, search introduction by shop, shelf by shelf, it is truly problematic. This is why we provide the books compilations in this website. It will categorically ease you to see guide **Australia Burning Fire Ecology Policy And Management Issues** as you such as.

By searching the title, publisher, or authors of guide you in fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you aspire to download and install the Australia Burning Fire Ecology Policy And Management Issues, it is agreed simple then, in the past currently we extend the link to buy and create bargains to download and install Australia Burning Fire Ecology Policy And Management Issues consequently simple!
