| Geographical knowledge and understanding                   | Geographical knowledge and understanding is the foundation of geographical literacy. It involves understanding the world as a complex system of interacting physical and human environments. This includes understanding the distribution of people and places, the processes that shape the world, and the ways in which the world is changing. Geographical knowledge and understanding is essential for understanding the world and for making informed decisions about the future.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |       |
|                                                            | Geographical knowledge and understanding is developed through a range of activities, including: <ul style="list-style-type: none"> <li>Learning about the world's physical and human features.</li> <li>Understanding the processes that shape the world.</li> <li>Exploring the ways in which the world is changing.</li> <li>Applying geographical knowledge and understanding to real-world situations.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |       |
| Geographical skills and capabilities                       | Geographical skills and capabilities are the tools and techniques used to gather, analyse, and communicate geographical information. These skills and capabilities are essential for understanding the world and for making informed decisions about the future. Geographical skills and capabilities are developed through a range of activities, including: <ul style="list-style-type: none"> <li>Gathering geographical information.</li> <li>Analysing geographical information.</li> <li>Communicating geographical information.</li> <li>Applying geographical skills and capabilities to real-world situations.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                      |       |
