The Santa Claus Man Alex Palmer, 2015-10-01 The true story of John Duval Gluck Jr who in 1913 founded the Santa Claus Association which had the sole authority to answer Santa's mail in New York City. He ran the organization for 15 years gaining fame for making the myth of Santa a reality to poor children by arranging for donors to deliver the toys they requested until a crusading charity commissioner exposed Gluck as a fraud. The story is wide in scope interweaving a phony Boy Scout group kidnapping stolen artwork and appearances by the era's biggest stars and New York City's most famous landmarks. The book is both a personal story and a far reaching historical one tracing the history of Christmas celebration in America and the invention of Santa Claus.

Language and Mathematics Marcel Danesi, 2016-06-06 This book explores the many disciplinary and theoretical links between language, linguistics and mathematics. It examines trends in linguistics such as structuralism, conceptual metaphor theory and other relevant theories to show that language and mathematics have a similar structure but differential functions even though one without the other would not exist.
