Annual National Convention,2013 *The United States and Genocide* Jeffrey Bachman,2017-11-22 There exists a dominant narrative that essentially defines the US relationship with genocide through what the US has failed to do to stop or prevent genocide rather than through how its actions have contributed to the commission of genocide This narrative acts to conceal the true nature of the US relationship with many of the governments that have committed genocide since the Holocaust as well as the US own actions In response this book challenges the dominant narrative through a comprehensive analysis of the US relationship with genocide The analysis is situated within the broader genocide studies literature while emphasizing the role of state responsibility for the commission of genocide and the crime s ancillary acts The book addresses how a culture of impunity contributes to the resiliency of the dominant narrative in the face of considerable evidence that challenges it Bachman s narrative presents a far darker relationship between the US and genocide one that has developed from the start of the Genocide Convention s negotiations and has extended all the way to present day as can be seen in the relationships the US maintains with potentially genocidal regimes from Saudi Arabia to Myanmar This book will be of interest to scholars postgraduates and students of genocide studies US foreign policy and human rights A secondary readership may be found in those who study international law and international relations Informing the Future Institute of Medicine,2011-10-12 This report illustrates the work of IOM committees in selected major areas in recent years followed by a description of IOM s convening and collaborative activities and fellowship programs The last section provides a comprehensive bibliography of IOM reports published since 2007
