Anti Christ Two Thousand Years Of The Human Fascination With Evil:

Antichrist Bernard McGinn, 1994 In this survey of the history of the Antichrist Bernard McGinn presents the Christian origins of the Antichrist legend but pays particularly close attention to how it plays in the popular imagination **The Legend of the Anti-Christ** Stephen J. Vicchio, 2009-07-01 In *The Legend of the Anti Christ* Stephen Vicchio offers a concise and historical approach to the history of the idea of the Anti Christ including precursors to the idea the development of the idea in the New Testament as well as the understandings of the legend of the Anti Christ in the history of Christianity Vicchio also raises the question of why there is so much emphasis in the modern world about the idea *The Antecedents of Antichrist* L.J. Lietaert Peerbolte, 2021-12-06 The present volume discusses the earliest Christian views on eschatological opponents and their backgrounds in contemporary Judaism It treats the rich variety of early Christian speculations on the subject and shows that within this variety a continuity with Jewish speculations is to be discerned Part One of this book treats the early Christian passages of the period up to Irenaeus that contain speculations on the coming of an eschatological opponent Part Two offers a survey of Jewish expectations that formed the basis for the Christian speculations discussed After the General Conclusion the book finishes with an extensive Bibliography and an Index The book is of interest to any student of early Christian eschatology and the continuity between early Christianity and contemporary Judaism *False Dawn* Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of

Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org **Revealed Wisdom** John Ashton,2014-06-16 A collection of twenty one essays clustered around the theme of apocalyptic revelations of hitherto undisclosed divine mysteries to human seers either directly or through the mediation of an interpreting angel Preliminary essays on the Book of Job Messianism and apocalyptic ethics are followed by five studies centred upon Jewish apocalypses composed around the turn of the era two anonymous three pseudonymous and four essays on New Testament writers two on Paul one on Mark and one on John A reflection upon an early Islamic convert from Judaism emphasizing the Abrahamic lexicon common to all three religions of the book is succeeded by essays on two medieval Christian visionaries Joachim of Fiore and Francis of Assisi After a further essay on a little known Syriac apocalyptic text the volume concludes with studies of four different aspects of the Book of Revelation itself **Encountering Islam on the First Crusade** Nicholas Morton,2016-07-14 A fundamental reassessment of Christian Islamic relations during the First Crusade combating its representation as an inter faith clash of civilizations **The Antichrist Tradition in Antiquity** Mateusz Kusio,2020-10-23 Was the idea of the ancient tradition surrounding the Antichrist present in related forms among both Jews and Christians Mateusz Kusio reveals an anti messianic tradition involving a variety of eschatological antagonists in conflict with diverse messianic actors that stretches across both Jewish and Christian corpora and revolves around a set of similar motifs ideas and core Biblical texts Prophecy, Alchemy, and the End of Time Leah DeVun,2013-12-01 In the middle of the fourteenth century the Franciscan friar John of Rupescissa sent a dramatic warning to his followers the end times were coming the apocalypse was near Rupescissa s teachings were unique in his era He claimed that knowledge of the natural world and alchemy in particular could act as a defense against the calamity of the last days He treated alchemy as medicine his work was the conceptual forerunner of pharmacology and reflected emerging technologies and views that sought to

combat famine plague religious persecution and war In order to understand scientific knowledge as it is today Leah DeVun asks that we revisit the Black Death the Hundred Years War and the Avignon Papacy through Rupescissa's eyes The advances he pioneered along with the exciting strides made by his contemporaries shed critical light on future developments in medicine pharmacology and chemistry

Constructing Antichrist Kevin L. Hughes, 2005-03 The figure of Antichrist has gripped the Christian imagination for two thousand years But Antichrist does not spring fully from the pages of Scripture Rather he emerges over a millennium of reflection on hints and clues scattered throughout Scripture and Christian tradition In particular the image of Antichrist is tied in a vital way to the man medieval Christians knew simply as the Apostle St Paul

Constructing Antichrist engages readers with the question what does Paul have to do with the Antichrist Integrating new scholarship in apocalypticism and the history of exegesis this book is the first longitudinal study of the role of Paul in apocalyptic thought Readers will gain new appreciation for the theological weight of medieval exegesis generally and for the persistence of apocalypticism in the medieval Christian imagination as it dared to envision the Adversary The author argues that the western doctrines of Antichrist and the Last Days are entwined with the development of medieval New Testament exegesis

The Second Letter to the Thessalonians a brief and much debated apocalyptic text in the New Testament is the most important locus for doctrinal speculation about Antichrist and the coming End The author carefully examines commentaries on 2 Thessalonians from the fourth to the twelfth centuries and finds that they provide the architecture for the developing doctrine of Antichrist as it is portrayed in later medieval art and literature By the twelfth century this tradition of reflection distills from the various early interpretations a classic synthetic understanding of Antichrist and the End that forms an authoritative consensus for centuries

Apocalyptic Thought in Early Christianity (Holy Cross Studies in Patristic Theology and History) Robert Daly, S.J., 2009-06-01 This volume explores how early Christian understandings of apocalyptic writings and teachings are reflected in the theology social practices and institutions of the early church It enables pastors and serious students of the Bible particularly those interested in patristics and church history to read the book of Revelation and related writings through ancient Christian eyes This is the second volume in Holy Cross Studies in Patristic Theology and History a partnership between Baker Academic and the Stephen and Catherine Pappas Patristic Institute of Holy Cross Greek Orthodox School of Theology in Brookline Massachusetts The series is a deliberate outreach by the Orthodox community to Protestant and Catholic seminarians pastors and theologians In these multiauthor books contributors from all traditions focus on the patristic especially Greek patristic heritage
