Antislavery Atlantic European Expansion Interaction:

Slavery and Antislavery in Spain's Atlantic Empire Josep M. Fradera, Christopher Schmidt-Nowara, 2013-06-01

African slavery was pervasive in Spain's Atlantic empire yet remained in the margins of the imperial economy until the end of the eighteenth century when the plantation revolution in the Caribbean colonies put the slave traffic and the plantation at the center of colonial exploitation and conflict. The international group of scholars brought together in this volume explain Spain's role as a colonial pioneer in the Atlantic world and its latecomer status as a slave trading plantation based empire. These contributors map the broad contours and transformations of slave trafficking, the plantation and antislavery in the Hispanic Atlantic while also delving into specific topics that include the institutional and economic foundations of colonial slavery, the law and religion, the influences of the Haitian Revolution and British abolitionism, antislavery and proslavery movements in Spain, race and citizenship and the business of the illegal slave trade.

Art Museums and the Legacies of the Dutch

Atlantic Slave Trade Sarah Mallory, Joanna S. Seidenstein, Rachel Burke, Kéla Jackson, 2024-12-02 This richly illustrated collection of essays presents wide ranging perspectives on the legacies of the Dutch Atlantic slave trade within and beyond museum walls. Contributions by curators, academics, activists, artists and poets consider this history as reflected in the arts of Europe, the Americas, Africa and the Black diaspora, more broadly together illuminating how art museums may function as liberatory spaces working against systemic injustice.

Studies on Slavery in Brazilian and African History and

Literature Roberto Hofmeister-Pich, Stephan Conermann, 2025-10-14 Historically Latin American political entities were structured by different forms of slave labor that until the 19th century depended on transatlantic slave trade from Africa to the Americas. In this volume scholars from Brazil, Germany and Africa characterize different forms of serfdom in colonial times, picture slavery based societies and explore aspects of dependency relations that emerged in the aftermath of abolition in Brazil and Africa.

Slavery and the Forensic Theatricality of Human Rights in the Spanish Empire

Karen-Margrethe Simonsen, 2023-06-24 This book is a study of the forensic theatricality of human rights claims in literary texts about slavery in the sixteenth and the nineteenth century in the Spanish Empire. The book centers on the question how do literary texts use theatrical multisensorial strategies to denunciate the violence against enslaved people and make a claim for their rights. The Spanish context is particularly interesting because of its early tradition of human rights thinking in the Salamanca School, especially Bartolomé de Las Casas developed in relation to slavery and colonialism. Taking its point of departure in forensic aesthetics, the book analyzes five forms of non narrative theatricality: allegorical, carnivalesque, tragicomic, melodramatic and tragic.

On the Road to Global Labour History, 2017-09-18 Global Labour History is a latecomer to historical science. It has only developed in the last three decades. This anthology provides a comprehensive overview of the state of the art. Prominent representatives of the discipline discuss its fundamental methodological and conceptual aspects. In addition, the volume contains field and case studies from Africa and Latin America as well as from the

Middle East and China In these studies the local regional and continental constitutive processes of the working class are discussed from a global historical perspective The anthology has been composed as a Festschrift dedicated to Marcel van der Linden the leading theoretician of and networker for Global Labour History Rethinking Atlantic Empire Scott Eastman, Stephen Jacobson, 2021-06-11 In recent years the historiography of nineteenth century Spain and Latin America has been invigorated by interdisciplinary engagement with scholars working on topics such as empire slavery abolition race identity and captivity No scholar better exemplified these developments than Christopher Schmidt Nowara a specialist on Spain and its Caribbean colonies in Cuba and Puerto Rico A brilliant career was cut short in 2015 when he died at the age of 48 Rethinking Atlantic Empire takes Schmidt Nowara s work as a point of departure charting scholarly paths that move past reductive national narratives and embrace transnational approaches to the entangled empires of the Atlantic world

Africa and the Expansion of International Society John Anthony Pella, Jr, 2014-08-21 This book explores the West Central African role in and experience during the expansion of international society Building upon theoretical contributions from the English School of international relations historical sociology and sociology it departs from Euro centric assumptions by analysing how West Central Africa and West Central Africans were integral to the ways in which Europe and Africa came together from the fifteenth century through to the twentieth Initially diverse scholarship concerned with the expansion of international society is examined revealing how the process has often been understood as one dictated by Europeans From there a new approach is developed one which is better able to examine the expansion as an interactive process between individuals and which puts the African experience at the heart of study The empirical research that follows this draws upon primary sources to introduce a number of historically significant and ground breaking cases into international relations including the international relations of West Central Africa before the European arrival the emergence and growth of the trans Atlantic slave trade the attempts to civilize Africa and the scramble to colonize Africa This book argues that the expansion of international society was driven by individual interaction and was shaped by both Africans and Europeans This book will be of interest to students and scholars of international relations international relations theory history African politics the English school and constructivism Author John Anthony Pella introduces his book African and the Expansion of International Society Surrendering the Savannah http://www.routledge.com/politics/articles/featured_author_john_anthony_pella
