Applied Business Statistics Ken Black:

Applied Business Statistics Ken Black, 2013 Black's latest outstanding pedagogy of Business Statistics includes the use of extra problems called Demonstration Problems to provide additional insight and explanation to working problems and presents concepts, topics, formulas, and application in a manner that is palatable to a vast audience and minimizes the use of scary formulas. Every chapter opens up with a vignette called a Decision Dilemma about real companies' data and business issues. Solutions to these dilemmas are presented as a feature called Decision Dilemma Solved. In this edition, all cases and Decision Dilemmas are updated and revised, and 13 have been replaced for currency. There is also a significant number of additional problems and an extremely competitive collection of databases containing real data on international stock markets, consumer food, international labor, financial energy, agribusiness, 12-year gasoline manufacturing, and hospital. *Business Statistics* Ken Black, 2009-12-02 Help your students see the light.
