Assessment and Intervention with Children, Adolescents, and Adults with Neurocognitive Challenges Nechama Sorscher, PhD, 2024-06-27 Neurodivergent children adolescents and adults demonstrate both learning and attention challenges that contribute to academic social and workplace failures The emotional consequences of these disorders can often include lowered self esteem pervasive feelings of shame profound insecurity about academic skills and a deep sense of vulnerability This leads many individuals with neurocognitive difficulties to consult with psychotherapists for help in alleviating their psychiatric symptoms Nechama Sorscher argues that it is therefore essential for clinicians to be mindful of the various types of learning disorders and their impact on the developing psyche while facilitating insight and awareness of these issues *Assessment and Intervention with Children Adolescents and Adults with Neurocognitive Challenges A Psychodynamic Perspective* provides an overview of the different types of learning disorders reviews the literature on common psychological themes found in the psychotherapy of individuals with these disorders and offers practical suggestions for treatment as illustrated in case histories This book discusses how to accurately assess and successfully intervene with children adolescents and adults with learning disabilities attention disorders and autism spectrum disorder *Language Development: Foundations, Processes, and Clinical Applications* Brian B. Shulman, Nina Capone Singleton, 2009-02-19

Perspectives on Individual Differences Affecting Therapeutic Change in Communication Disorders Amy L. Weiss, 2012-12-06 This volume examines the ramifications of individual differences in therapy outcomes for a wide variety of communication disorders In an era where evidence based practice is the clinical profession s watchword each chapter attacks this highly relevant issue from a somewhat different perspective In some areas of communication disorders considering the variance brought by the client into the therapeutic mix has a healthy history whereas in others the notion of how individual client profiles mesh with therapy outcomes has rarely been considered Through the use of research results case study descriptions and speculation the contributors have creatively woven what we know and what we have yet to substantiate into an interesting collection of summaries useful for therapy programming and designing clinical research
