Africa After Apartheid South Africa Race And Nation In Tanzania:

Africa After Apartheid Richard A. Schroeder, 2012-09-03 Africa after Apartheid affords a penetrating look at the unexpected results of the expansion of African business opportunities following the demise of apartheid *Colonial Mentality and the Destiny of Africa* Godfrey Mwakikagile, 2020-03-20 In his book *Colonial Mentality and the Destiny of Africa* Godfrey Mwakikagile examines the negative impact of colonial mentality on Africa's well-being as a continental crisis and how it impedes Africa's progress and the quest for an African renaissance *African Socialism in Postcolonial Tanzania* Priya Lal, 2015-12-01 Drawing on a wide range of oral and written sources this book tells the story of Tanzania's socialist experiment the ujamaa villagization initiative of 1967-75 Inaugurated shortly after independence ujamaa familyhood in Swahili both invoked established socialist themes and departed from the existing global repertoire of development policy seeking to reorganize the Tanzanian countryside into communal villages to achieve national development Priya Lal investigates how Tanzanian leaders and rural people creatively envisioned ujamaa and documents how villagization unfolded on the ground without affixing the project to a trajectory of inevitable failure By forging an empirically rich and conceptually nuanced account of ujamaa *African Socialism in Postcolonial Tanzania* restores a sense of possibility and process to the early years of African independence refines prevailing theories of nation building and development and expands our understanding of the 1960s and 70s world **The Rise of the BRICS in Africa** Doctor Pdraig Carmody, 2013-09-12 A little over a decade ago Africa was being spoken of in the media as the lost or hopeless continent Now it has some of the fastest growing economies in the world largely because of the impact of the BRICS Brazil Russia India China and South Africa In this first book to be written about the BRICS as a collective phenomenon Pdraig Carmody reveals how their engagements with Africa both individually and collectively are often contradictory generating new inequalities and potential for development Crucially Carmody shows how the geopolitics of the BRICS countries involvement in Africa is impacted by and impacts upon their international relations more generally and how the emergence of these economies has begun to alter the very nature of globalization which is no longer purely a Western led project This is a path breaking examination of Africa's changing role in the world *Global Perspectives on Gender and Space* Ann Oberhauser, Ibipo Johnston-Anumonwo, 2014-03-21 Feminism has re-shaped the way we think about equality power relations and social change Recent feminist scholarship has provided new theoretical frameworks methodologies and empirical analyses of how gender and feminism are situated within the development process *Global Perspectives on Gender and Space* Engaging Feminism and Development draws upon this framework to explore the effects of globalization on development in diverse geographical contexts It explores how women's and men's lives are gendered in specific spaces as well as across multiple landscapes Traveling from South Asia to sub-Saharan Africa to North America and the Caribbean the contributions illustrate the link between gender and global development including economic livelihoods policy measures and environmental change Divided into three sections Global

Perspectives on Gender and Space showcases the following issues One the impact of neoliberal policies on transnational migration public services and microfinance programs Two feminist and participatory methodologies employed in the evaluation of land use women s cooperatives and liberation struggles and Three gendered approaches to climate change natural disasters and conservation the global South A feminist lens is the common thread throughout these sections that weaves gender into the very fabric of everyday life providing a common link between varied spaces around the globe by mapping gendered patterns of power and social change This timely volume provides geographic comparisons and case studies to give empirically informed insights on processes and practices relevant to feminism and development It illustrates ways to empower individuals and communities through transnational struggles and grassroots organizations while emphasizing human rights and gender equity and will be of interest to those studying Geography Development Studies International Relations and Gender Studies

Carmody, 2017-01-03 Once marginalized in the world economy Africa today is a major global supplier of crucial raw materials like oil uranium and coltan China s part in this story has loomed particularly large in recent years and the American military footprint on the continent has also expanded But a new scramble for resources markets and territory is now taking place in Africa involving not just state but non state actors including Islamic fundamentalist and other rebel groups The second edition of P draig Carmody s popular book explores the dynamics of the new scramble for African resources markets and territory and the impact of current investment and competition on people the environment and political and economic development on the continent Fully revised and updated throughout its chapters explore old and new economic power interests in Africa oil minerals timber biofuels land food and fisheries and the nature and impacts of Asian and South African investment in manufacturing and other sectors The New Scramble for Africa will be essential reading for students of African studies international relations and resource politics as well as anyone interested in current affairs

Jah Kingdom Monique A. Bedasse, 2017-08-11 From its beginnings in 1930s Jamaica the Rastafarian movement has become a global presence While the existing studies of the Rastafarian movement have primarily focused on its cultural expression through reggae music art and iconography Monique A Bedasse argues that repatriation to Africa represents the most important vehicle of Rastafari s international growth Shifting the scholarship on repatriation from Ethiopia to Tanzania Bedasse foregrounds Rastafari s enduring connection to black radical politics and establishes Tanzania as a critical site to explore gender religion race citizenship socialism and nation Beyond her engagement with how the Rastafarian idea of Africa translated into a lived reality she demonstrates how Tanzanian state and nonstate actors not only validated the Rastafarian idea of diaspora but were also crucial to defining the parameters of Pan Africanism Based on previously undiscovered oral and written sources from Tanzania Jamaica England the United States and Trinidad Bedasse uncovers a vast and varied transnational network including Julius Nyerere Michael Manley and C L R James revealing Rastafari s entrenchment in the making of Pan Africanism in the postindependence period

The souls of white folk Brett Shadle, 2015-05-01 Kenya's white settlers have been alternately celebrated and condemned painted as romantic pioneers or hedonistic bed hoppers or crude racists The souls of white folk examines settlers not as caricatures but as people inhabiting a unique historical moment It takes seriously though not uncritically what settlers said how they viewed themselves and their world It argues that the settler soul was composed of a series of interlaced ideas settlers equated civilisation with a hard to define whiteness they were emotionally enriched through claims to paternalism and trusteeship over Africans they felt themselves constantly threatened by Africans by the state and by the moral failures of other settlers and they daily enacted their claims to supremacy through rituals of prestige deference humiliation and violence The souls of white folk will appeal to those interested in the histories of Africa colonialism and race and can be appreciated by scholars and students alike

A Motorcycle on Hell Run Seth M. Markle, 2017-08-01 Between 1964 and 1974 Tanzania came to be regarded as a model nation and a leading frontline state in the struggle for African liberation on the continent and beyond During this time a number of African American and Caribbean nationalists leftists and pan Africanists traveled to and settled in Tanzania to join the country that many believed to be leading Africa's liberation struggle This historical study examines the political landscape of that crucial moment when African American Caribbean and Tanzanian histories overlapped shedding light on the challenges of creating a new nation and the nature of African American and Caribbean participation in Tanzania's nationalist project In examining the pragmatic partnerships and exchanges between socialist Tanzania and activists and organizations associated with the Black Power movements in the United States and the Caribbean this study argues that the Tanzanian one party government actively engaged with the diaspora and sought to utilize its political cultural labor and intellectual capital to further its national building agenda but on its own terms creating tension within the pan Africanism movement An excellent resource for academics and nonacademics alike this work is the first of its kind revealing the significance of the radical political and social movements of Tanzania and what it means for us today

Selling the Serengeti Benjamin Gardner, 2016-02-15 Situating safari tourism within the discourses and practices of development Selling the Serengeti examines the relationship between the Maasai people of northern Tanzania and the extraordinary influence of foreign owned ecotourism and big game hunting companies It looks at two major discourses and policies surrounding biodiversity conservation the championing of community based conservation and the neoliberal focus on private investment in tourism and their profound effect on Maasai culture and livelihoods This ethnographic study explores how these changing social and economic relationships and forces remake the terms through which state institutions and local people engage with foreign investors communities and their own territories The book highlights how these new tourism arrangements change the shape and meaning of the nation state and the village and in the process remake cultural belonging and citizenship Benjamin Gardner's experiences in Tanzania began during a study abroad trip in 1991 His stay led to a relationship with the nation and the Maasai people in Loliondo lasting almost twenty years it also marked the beginning of

his analysis and ethnographic research into social movements market led conservation and neoliberal development around the Serengeti
