Afrique A Warning For America:

Africa's Challenge to America Chester Bowles, 2023-04-28 This book examines Africa's emerging role in global politics during the mid 20th century and presents Chester Bowles' views on how American foreign policy should adapt to meet Africa's growing challenges. Following World War II, the United States' foreign policy largely focused on countering Soviet influence in Europe through NATO and economic aid programs like the Marshall Plan. However, Bowles argues that while these measures were effective in Europe, they failed to address the revolutionary wave of decolonization sweeping Africa and other regions. This movement, driven by the desire for self-determination, required a different approach—one that respects the aspirations of newly independent nations rather than relying on traditional military alliances. Bowles emphasizes that the anticolonial revolution is grounded in universal principles of freedom and self-governance, ideals with which the United States, as a nation born from colonial rebellion, should naturally identify. Yet he critiques American foreign policy for its heavy reliance on military alliances to counter Soviet influence in the global south, arguing that such tactics ignore the aspirations of these newly emerging nations. To effectively support freedom and stability in Africa, he advocates for a foreign policy that prioritizes economic aid and respects African sovereignty. He asserts that such an approach could counteract Soviet influence, which increasingly sought to harness Africa's anticolonial energy for its own ends by promoting economic and ideological alignment with Moscow. In his lectures at the University of California in 1956, Bowles articulates an alternative vision for American engagement with Africa. He calls for economic partnerships, developmental aid, and an honest commitment to the values of self-determination and mutual respect, rather than treating Africa solely as a pawn in the East-West conflict. Bowles' approach challenges American policymakers to re-evaluate the nation's role in supporting decolonization and to recognize Africa as a vital arena for advancing global peace and security in alignment with American ideals. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1956.

Afrique H. J. Poole, 2015 *Afrique* is mostly about saving the 54 countries in Africa, but it could also enhance U.S. security. America's current deluge of internal problems cannot be all self-inflicted, but many still believe 1 al Qaeda and ISIS are her only foes, 2 her intelligence agencies see every threat coming, and 3 her military is the best in the world at all things. This book reveals how completely Africa has now been subverted. Not only have Muslim expansionists been successful there, but also those from the People's Republic of China (PRC). Then *Afrique* talks about how the U.S. military could more effectively abate the takeover. Finally, it briefly addresses similar incursions on U.S. soil.

Overlapping Regional Organizations in South America and Africa Clarissa Correa Neto Ribeiro, 2022-05-31 This book discusses the interaction between and the impact of overlapping actions by regional

organizations while dealing with critical events It compares all the sub regions in South America and Africa from this perspective and creates new knowledge through cross regional gleanings The book analyses types of institutional interaction among regional organizations and the effects of overlapping actions on the coexistence or fracturing of regional processes It examines and compares the dynamics of these interactions in both South America and Africa The book contributes to the study of comparative regionalism by providing generalization and institutional learning based on a cross regional approach It gives to students researchers and interested readers an understanding of the complexity of regional affairs in multi organizational environments

Africa Regional Overview of Food Security and Nutrition 2018 Food and Agriculture Organization of the United Nations, United Nations Economic Commission for Africa, 2019-03-04 This year's edition of the Africa Regional Overview of Food Security and Nutrition reports that the food security situation on the continent continues to worsen For Africa 20.4 percent of the continent's population 257 million people are undernourished up from 19.7 in 2016 241 million people In sub Saharan Africa there are 237 million undernourished in 2017 up from 222 million in 2016 The worsening situation in Africa is due to difficult global economic conditions and in many countries conflict and climate related disasters sometimes in combination Economic growth slowed in 2016 due to weak commodity prices in particular for oil and minerals Food insecurity has worsened in countries affected by conflict often exacerbated by drought or floods and in Southern and Eastern Africa many countries have been adversely affected by prolonged drought Notably several countries have achieved sustained progress in reducing food insecurity in the face of challenging circumstances The deterioration of the food security situation and the lack of progress towards the WHO global nutrition targets makes it imperative for countries to step up their efforts if they are to achieve a world without hunger and malnutrition by 2030 The need for greater efforts also emerges clearly from the findings of the inaugural biennial review of progress in implementing the goals of the Malabo Declaration In addition to specific food security and nutrition policies this year's report reviews four important cross cutting topics namely youth employment remittances intraregional trade and climate change It highlights their interplay with the food system and their role in food security and nutrition The thematic part of the report presents an evidence based assessment of the threat posed by more frequent occurrences of climate extremes and rising climate variability to food security and nutrition in the region Climate change in combination with poor development planning poverty and environmental degradation increases the risk of a climate event becoming a disaster A collective approach that combines climate change adaptation with disaster resilient development is an opportunity to address climate and disaster risks within the context of broader development goals

Party Proliferation and Political Contestation in Africa Catherine Lena Kelly, 2019-06-22 This book analyzes several components of democratization and party competition in West Africa focusing on Senegal a country with one of the longest histories of multiparty elections It does so in service of examining the origins and consequences of the proliferation of political parties a trend that has taken hold in Senegal and a variety of other African

countries The author uses novel sources of data to illuminate the economic and political roots of party functions and trajectories by placing party formation opposition ruling party loyalty and presidential turnover into local and regional contexts This work will appeal to African Studies scholars professors graduate students and policy makers AF Press Clips,1987 Handbook of Drought and Water Scarcity Saeid Eslamian,Faezeh A. Eslamian,2017-08-02 This volume include over 30 chapters written by experts from around the world It examines drought and all of the fundamental principles relating to drought and water scarcity It includes coverage of the causes of drought occurrences preparations drought vulnerability assessments societal implications and more *Regionalism in Africa* Daniel C Bach,2015-12-22 Africa which was not long ago discarded as a hopeless and irrelevant region has become a new frontier for global trade investment and the conduct of international relations This book surveys the socio economic intellectual and security related dimensions of African regionalisms since the turn of the 20th century It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa s own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance *Africa, Problems & Prospects* United States.
