After Brown The Rise And Retreat Of School Desegregation:

After "Brown" Charles T. Clotfelter, 2006-03-19 The United States Supreme Court's 1954 landmark decision *Brown v Board of Education* set into motion a process of desegregation that would eventually transform American public schools This book provides a comprehensive and up to date assessment of how *Brown*'s most visible effect contact between students of different racial groups has changed over the fifty years since the decision Using both published and unpublished data on school enrollments from across the country Charles Clotfelter uses measures of interracial contact racial isolation and segregation to chronicle the changes He goes beyond previous studies by drawing on heretofore unanalyzed enrollment data covering the first decade after *Brown* calculating segregation for metropolitan areas rather than just school districts accounting for private schools presenting recent information on segregation within schools and measuring segregation in college enrollment Two main conclusions emerge First interracial contact in American schools and colleges increased markedly over the period with the most dramatic changes occurring in the previously segregated South Second despite this change four main factors prevented even larger increases white reluctance to accept racially mixed schools the multiplicity of options for avoiding such schools the willingness of local officials to accommodate the wishes of reluctant whites and the eventual loss of will on the part of those who had been the strongest protagonists in the push for desegregation Thus decreases in segregation within districts were partially offset by growing disparities between districts and by selected increases in private school enrollment

Encyclopedia of African American Education Kofi Lomotey, 2010 The Encyclopedia of African American Education covers educational institutions at every level from preschool through graduate and professional training with special attention to historically black and predominantly black colleges and universities Other entries cover individuals organizations associations and publications that have had a significant impact on African American education The Encyclopedia also presents information on public policy affecting the education of African Americans including both court decisions and legislation It includes a discussion of curriculum concepts theories and alternative models of education and addresses the topics of gender and sexual orientation religion and the media The Encyclopedia also includes a Reader's Guide provided to help readers find entries on related topics It classifies entries in sixteen categories Alternative Educational Models Associations and Organizations Biographies Collegiate Education Curriculum Economics Gender Graduate and Professional Education Historically Black Colleges and Universities Legal Cases Pre Collegiate Education Psychology and Human Development Public Policy Publications Religious Institutions Segregation Desegregation Some entries appear in more than one category This two volume reference work will be an invaluable resource not only for educators and students but for all readers who seek an understanding of African American education both historically and in the 21st century

Understanding Neoliberal Rule in K-12 Schools Mark Abendroth, Brad J. Porfilio, 2015-06-01 The word fundamentalism usually conjures up images of religions and their most zealous followers Much less often the word appears in

connection with political economy The phrase free market gives the connotation that capitalism is freedom Neoliberalism is the rise of global free market fundamentalism It reaches into nearly every aspect of our daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation It degrades all that is public The good news is that a global community of resistance continues to struggle against neoliberal oppression Formal and informal education entities contribute to these struggles offering visions and strategies for creating a better future The purpose of this volume is twofold Several contributors will highlight how the neoliberal agenda is impacting educational policy formation teaching and learning and relationships between K 12 schools and communities Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on schools and society fails to provide conceptual or historical understanding of this ideology It is also an important scholarly intervention because it provides insights as to why educators scholars and other global citizens have challenged the intrusion of market forces over life inside K 12 schools Teacher educators schoolteachers and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume Activists educators youth and scholars who seek strategies and visions for building democratic schools and a society would consider this volume essential reading [Handbook of Research on School Choice](#) Mark Berends, Ann Primus, Matthew Springer, 2019-06-20 Updated to reflect the latest developments and increasing scope of school based options the second edition of the Handbook of Research on School Choice makes readily available the most rigorous and policy relevant research on K 12 school choice This comprehensive research handbook begins with scholarly overviews that explore historical political economic legal methodological and international perspectives on school choice In the following sections experts examine the research and current state of common forms of school choice charter schools school vouchers and magnet schools The concluding section brings together perspectives on other key topics such as accountability tax credit scholarships parent decision making and marginalized students With empirical perspectives on all aspects of this evolving sphere of education this is a critical resource for researchers faculty and students interested in education policy the politics of education and educational leadership **Opportunity Lost** Marcus D. Pohlmann, 2008 In **Opportunity Lost** Marcus D Pohlmann examines the troubling issue of why Memphis city school students are underperforming at alarming rates His provocative interdisciplinary analysis combining both history and social science examines the events before and after desegregation compares a city school to an affluent suburban school to pinpoint imbalances and offers critical assessments of various educational reforms In addition to his analysis of the problems Pohlmann lays out educational reforms that run the gamut from early intervention and parental involvement to increasing teacher compensation improving time utilization and more Pohlmann's illuminating and original study has wide application

for a problem that bedevils inner city children everywhere and prevents the promise of equality from reaching all of our nation's citizens Book cover **Integrating Schools in a Changing Society** Erica Frankenberg, Elizabeth H. Debray, 2011 In this comprehensive volume a roster of leading scholars in educational policy and related fields offer eighteen essays seeking to illuminate new ways for American public education to counter persistent racial and socioeconomic inequality in our society Drawing on extensive research the contributors reinforce the key benefits of racially integrated schools examine remaining options to pursue multiracial integration and discuss case examples that suggest how to build support for those efforts Encyclopedia of Education Law Charles J. Russo, 2008-06-27 This encyclopedia is a covers the essential and core areas of the subject including cases governance technology and biography Urban Issues CQ Researcher, 2016-08-30 What are the driving forces behind Smart Cities What are the ramifications of increasing the minimum wage What are the causes of aging infrastructure and how should they be addressed These are just some of the provocative questions that are considered in the new edition of Urban Issues For current coverage of urban politics readers will appreciate the balanced and unbiased reporting of CQ Researcher Urban Issues provides a window into how policy is created and implemented in America's cities and is sure to spark classroom discussions Each chapter examines the key players stakes background and lessons for the future while covering the range of facts analyses and opinions surrounding each issue **Democratic Education Stretched Thin**, 2007-02-22 **Cutting School** Noliwe Rooks, 2017-09-26 2018 Zora Neale Hurston Richard Wright Legacy Award Nonfiction Finalist A timely indictment of the corporate takeover of education and the privatization and profitability of separate and unequal schools published at a critical time in the dismantling of public education in America An astounding look at America's segregated school system weaving together historical dynamics of race class and growing inequality into one concise and commanding story Cutting School puts our schools at the center of the fight for a new commons Naomi Klein author of No Is Not Enough and This Changes Everything Public schools are among America's greatest achievements in modern history yet from the earliest days of tax supported education today a sector with an estimated budget of over half a billion dollars there have been intractable tensions tied to race and poverty Now in an era characterized by levels of school segregation the country has not seen since the mid twentieth century cultural critic and American studies professor Noliwe Rooks provides a trenchant analysis of our separate and unequal schools and argues that profiting from our nation's failure to provide a high quality education to all children has become a very big business Cutting School deftly traces the financing of segregated education in America from reconstruction through Brown v Board of Education up to the current controversies around school choice teacher quality the school to prison pipeline and more to elucidate the course we are on today the wholesale privatization of our schools Rooks's incisive critique breaks down the fraught landscape of segrenomics showing how experimental solutions to the so called achievement gaps including charters vouchers and cyber schools rely on profit from and ultimately exacerbate disturbingly high levels of racial and economic

segregation under the guise of providing equal opportunity Rooks chronicles the making and unmaking of public education and the disastrous impact of funneling public dollars to private for profit and nonprofit operations As the infrastructure crumbles a number of major U S cities are poised to permanently dismantle their public school systems the very foundation of our multicultural democracy Yet Rooks finds hope and promise in the inspired individuals and powerful movements fighting to save urban schools A comprehensive compelling account of what s truly at stake in the relentless push to deregulate and privatize Cutting School is a cri de coeur for all of us to resist educational apartheid in America
