After Method Mess In Social Science Research:

After Method John Law, 2004 John Law argues that methods don't just describe social realities but are also involved in creating them. The implications of this argument are highly significant. If this is the case, methods are always political and it raises the question of what kinds of social realities we want to create. Most current methods look for clarity and precision. It is usually said that only poor research produces messy findings and the idea that things in the world might be fluid, elusive, or multiple is unthinkable. Law's startling argument is that this is wrong and it is time for a new approach. Many realities, he says, are vague and ephemeral. If methods want to know and help to shape the world, then they need to reinvent themselves and their politics to deal with mess. That is the challenge. Nothing less will do. [Search After Method](#) Julie Laplante, Ari Gandsman, Willow Scobie, 2020-09-11 Reigniting a tradition of learning from experience. [Search After Method](#) is a plea for livelier forms of anthropology. The anthropologists in the collection recount their experiences of working in the field framed within a range of anthropological debates. The book thus provides accounts of lived experiences from both extensive and contemporary fieldwork as well as offering solutions for how to evolve the art of anthropological research beyond what is currently imagined. **Handbook of Research on Social and Organizational Dynamics in the Digital Era** Idemudia, Efosa C., 2019-08-30 Technology in the world today impacts every aspect of society and has infiltrated every industry affecting communication, management, security, etc. With the emergence of such technologies as IoT, big data, cloud computing, AI, and virtual reality, organizations have had to adjust the way they conduct business to account for changing consumer behaviors and increasing data protection awareness. The **Handbook of Research on Social and Organizational Dynamics in the Digital Era** provides relevant theoretical frameworks and the latest empirical research findings on all aspects of social issues impacted by information technology in organizations and inter-organizational structures and presents the conceptualization of specific social issues and their associated constructs. Featuring coverage on a broad range of topics such as business management, knowledge management, and consumer behavior, this publication seeks to advance the practice and understanding of technology and the impacts of technology on social behaviors and norms in the workplace and society. It is intended for business professionals, executives, IT practitioners, policymakers, students, and researchers. [Governing the Feminist Peace](#) Paul C. Kirby, Laura Shepherd, 2024-04-02 The Women Peace and Security (WPS) agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance. Its power is visible in two decades of United Nations resolutions, national action plans, regional initiatives, and countless activist, academic, and philanthropic projects. Yet despite this vitality, it is haunted by failure as a lack of political will and stubborn patriarchal resistance frustrate its promise. This book offers a groundbreaking critical account of the WPS agenda, exploring its evolution in relation to the wider politics of global governance and feminism. Paul Kirby and Laura J. Shepherd argue that WPS is not a settled, cohesive policy but a field in flux, defined and disrupted by a growing number of national, supranational, subnational

and transnational agents who in turn act on an expanding catalogue of threats from climate change to homophobia challenging traditional boundaries of peace and security Kirby and Shepherd reconceptualize WPS as a policy ecosystem tracing interaction and contestation around the agenda across levels from the UN Security Council to military alliances to feminist activists They combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy statecraft the politics of indigeneity counterinsurgency antimilitarism human rights and the arms trade across the first twenty years of WPS Far reaching and incisive Governing the Feminist Peace poses a provocative question What if we abandoned the idea of the WPS agenda as a unified political project altogether

Activist and Socially Critical School and Community Renewal John Smyth, Lawrence Angus, Barry Down, Peter McInerney, 2019-02-11 Activist and Socially Critical School and Community Renewal comes about at an incredibly important point in history and it offers a genuinely new paradigm This book attempts what few others have tried to bring together knowledge and literature around school reform and community renewal through authentic ethnographic stories of real schools and communities The book describes and analyzes a courageous struggle for a more socially just world around notions of relational solidarity that speak back to ideas that continue to privilege the already advantaged This book provides some desperately needed new storylines as a basis for school and community renewal for the most excluded groups in society It provides a new social imagination for doing school in contexts that stand to benefit from school and community voiced approaches
