Against Adaptation Lacans Subversion Of The Subject Lacanian Clinical Field:

Against Adaptation Philippe Van Haute, 2012-12-04 Van Haute's exegesis of Lacan's essay is as lucid as it is cogent and an admirable and very illuminating achievement William Richardson *Reading Lacan's Seminar VIII* Gautam Basu Thakur, Jonathan Dickstein, 2020-03-23 This book provides 18 lively commentaries on Lacan's Seminar VIII Transference 1960-61 that explore its theoretical and philosophical consequences in the clinic, the classroom, and society. Including contributions from clinicians as well as scholars working in philosophy, literature, and culture studies, the commentaries presented here represent a wide range of disciplinary perspectives on the concept of transference. Some chapters closely follow the structure of the seminar's sessions, while others take up thematic concerns or related sessions such as the commentary on sessions 19 to 22 which deal with Lacan's discussion of Claudel's *Co fontaine* trilogy. This book is not a compendium to Lacan's seminar. Instead, it attempts to capture through shorter contributions a spectrum of voices debating, deliberating, and learning with Lacan's concept. In doing so, it can be seen to engage with transference conceptually in a manner that matches the spirit of Lacan's seminar itself. The book will provide an invaluable new resource for Lacan scholars working across the fields of psychoanalytic theory, clinical psychology, philosophy, and cultural studies. *Clinical Lacan* Joel Dor, 1998-09-17 This companion text to *Introduction to the Reading of Lacan* focuses on the concept of the psychic structures of desire. Using case examples, Dor explains the crucial difference between symptoms which can be phenomenologically grasped and the actual psychic structure of the subject which can be revealed only through the discourse of the patient in the psychoanalytic situation. This work brings life and practicality to a psychoanalytic movement that has been misperceived and divorced from the daily vicissitudes of analytic work. **Lacan's Seminar On Anxiety** Roberto Harari, 2013-03-26 Designed for novices as well as students of psychology and literary criticism, these systematic lectures do much to clarify Lacan's groundbreaking work on the birth of the subject and its links with Freud's theory of drives. Moreover, they answer some of the criticisms that have been leveled at Lacan by forms of psychoanalysis unable or unwilling to incorporate his ideas. Hysteria From Freud to Lacan Juan-David Nasio, 2020-10-13 In the English-speaking psychoanalytic world, few diagnostic categories are as controversial as hysteria. This concept, widely held to reflect outmoded cultural prejudices against women, has virtually disappeared from our theoretical literature, diagnostic manuals, and training programs. However, far from being gender-bound, hysteria from Jacques Lacan represents a psychic strategy that bears on one of the most fundamental preoccupations of existence: What does it mean to be a woman? What does it mean to be a man? *Lacanian Psychotherapy With Children* Catherine Mathelin, 2020-09-08 In a groundbreaking integration of the work of Lacan, Winnicott, and Tustin, Catherine Mathelin reveals how a child's symptoms can be a striking reflection of its parents' unresolved conflicts. She shows how her patients' art, much of it reproduced here, can communicate both initial anguish and progress in treatment and draws on her experience of working on a neonatal unit to argue compellingly that a child's mental health can be endangered even before

birth This is a book hard to put down filled with the most fascinating brief case vignettes of parents and children who live in worlds disconnected from each other hoping for experts to heal their suffering Anni Bergman coauthor of *The Psychological Birth of the Human Infant* **Introduction to the Reading of Lacan** Joel Dor, 2013-03-26 About this Book A major and long overdue addition to the American English psychoanalytic literature All major concepts among them the mirror stage the Name of the Father metaphor and metonymy the phallus the foreclosure of the subject are developed in depth Nicholas Kourtsas Harvard Medical School *Freud and the Problem of Sexuality* Bradley Ramos, 2024-03-01 While contemporary studies have paid renewed attention to the psychoanalytic theory of sexuality and routinely reference Sigmund Freud they seldom engage directly with his work *Freud and the Problem of Sexuality* returns to Freud's writings to argue that there is still something revolutionary and novel to be found there something that will come to challenge both philosophical and popular understandings of sexuality In lively accessible prose Bradley Ramos revisits some of the most difficult even troubling aspects of Freud's work and sheds fresh light on foundational concepts such as Trieb drive or instinct perversion infantile sexuality and the Oedipus complex Reading Freud alongside Jean Laplanche Louis Althusser and Jacques Derrida we can begin to see why sexuality becomes for us as it did for Freud a problem in and by its nature However to take this problem of sexuality seriously Ramos argues we must dare to do what most refuse renounce our persistent fantasies and assumptions about sexuality **Christ in Postmodern Philosophy** Frederiek Depoortere, 2008-10-01 An investigation into the Christological ideas of three contemporary thinkers Slavoj Žižek Gianni Vattimo and Ren Girard What Is Talmud? Sergey Dolgopolski, 2009-08-25 True disagreements are hard to achieve and even harder to maintain for the ghost of final agreement constantly haunts them The Babylonian Talmud however escapes from that ghost of agreement and provokes unsettling questions Are there any conditions under which disagreement might constitute a genuine relationship between minds Are disagreements always only temporary steps toward final agreement Must a community of disagreement always imply agreement as in an agreement to disagree What is Talmud rethinks the task of philological literary historical and cultural analysis of the Talmud It introduces an aspect of this task that has best been approximated by the philosophical anthropological and ontological interrogation of human being in relationship to the Other whether animal divine or human In both engagement and disengagement with post Heideggerian traditions of thought Sergey Dolgopolski complements philological historical and cultural approaches to the Talmud with a rigorous anthropological ontological and Talmudic inquiry He redefines the place of the Talmud and its study both traditional and academic in the intellectual map of the West arguing that Talmud is a scholarly art of its own and represents a fundamental intellectual discipline not a mere application of logical grammatical or even rhetorical arts for the purpose of textual hermeneutics In Talmudic intellectual art disagreement is a fundamental category What Is Talmud rediscovers disagreement as the ultimate condition of finite human existence or co existence
