conversations and projects to investigate the numerous opportunities that architectural practitioners have created for themselves given that design is undervalued and often invisible in our society Some of the voices presented in this collection are ADOBE LA a design group whose work addresses the Latino American communities in Los Angeles Sam Mockbee who founded Rural Studio in Hale County Alabama Chip Minnick whose project Nike Shelter imagines an intimate partnership between architects and global corporations HEDGE Design Collective a group of young practitioners organized in a collaborative structure in order to pool resources and create ever changing project teams and Jonathan Hill whose idea of the Illegal Architect subverts the codes and conventions of the profession by claiming that occupying architecture can be an act of design in its own right

The Perfect \$100,000 House Karrie Jacobs, 2007-05-29 A home of one's own has always been a cornerstone of the American dream fulfilling like nothing else the desire for comfort financial security independence and with a little luck even a touch of distinctive character or even beauty But what we have come to regard as almost a national birthright has recently begun to elude more and more prospective homebuyers Where housing is concerned affordable and well crafted rarely exist together Or do they For years founding editor in chief of Dwell magazine and noted architecture and design critic Karrie Jacobs had been confronting this question both professionally and personally Finally she decided to see for herself whether it was possible to build the home of her own dreams for a reasonable sum The Perfect 100 000 House is the story of that quest a search that takes her from a two week crash course in housebuilding in Vermont to a road trip of some 14 000 miles In the course of her journey Jacobs encounters a group of intrepid and visionary architects and builders working to revolutionize the way Americans think about homes about construction techniques and about the very idea of community By her trip's end Jacobs has not only had a practical and sobering education in the economics aesthetics and politics of homebuilding but has been spurred to challenge her own deeply held beliefs about what constitutes an ideal home The Perfect 100 000 House is a compelling and inspiring demonstration that we can live in homes that are sensible modest and beautiful
