foundation in CASIC for seasoned research survey practitioners and graduate students across a broad spectrum of social science disciplines Human Population Genetics and Genomic Applications Mr. Rohit Manglik, 2024-02-24 Genomic variation is covered Guides students to analyze population genetics fostering expertise in human genomics through laboratory experiments and theoretical analysis **Intermediate Statistical Methods for Business and Economics** Rob Van Den Honert, 1999 This text is aimed at commerce and social science students who have already completed a first semester course in mathematics and applied statistics **Applied Multivariate Research** Lawrence S. Meyers, Glenn Gamst, A.J. Guarino, 2006 Multivariate designs were once the province of the very few exalted researchers who understood the underlying advanced mathematics Today through the sophistication of statistical software packages such as SPSS virtually all graduate students across the social and behavioural sciences are exposed to the complex multivariate statistical techniques without having to learn the mathematical computations needed to acquire the data output These students in psychology education political science etc will never be statisticians and appropriately so their preparation and coursework reflects less of an emphasis on the mathematical complexities of multivariate statistics and more on the analysis and the interpretation of the methods themselves and the actual data output This book provides full coverage of the wide range of multivariate topics in a conceptual rather than mathematical approach The author gears toward the needs level of sophistication and interest in multivariate methodology of students in applied areas that need to focus on design and interpretation rather than the intricacies of specific computations The book includes Coverage of the most widely used multivariate designs multiple regression exploratory factor analysis MANOVA and structural equation modeling Integrated SPSS examples for hands on learning from one large study for consistency of application throughout the text Examples of written results to enable students to learn how the results of these procedures are communicated Practical application of the techniques using contemporary studies that will resonate with students *Statistics for Business and Financial Economics* Cheng F. Lee, John C. Lee, Alice C. Lee, 2000 This text integrates various statistical techniques with concepts from business economics and finance and demonstrates the power of statistical methods in the real world of business This edition places more emphasis on finance economics and accounting concepts with updated sample data
