Biomedical Research Institute Perspective Development:

The Biomedical Research Institute. a Perspective on Alternative Paradigms for Research Development Paul Neiman, 2015-12-03 *Perspectives on the Role of Science & Technology in Sustainable Development* DIANE Publishing Company, 1995-08 Examines an array of sustainable development definitions discusses their common elements Describes current agriculture energy industry technologies Also discusses the progress that is being made in education communication information technologies that could support sustainable development Numerous photos tables *Biomedical Research and the Environment* John T. Grupenhoff, Byron J. Bailey, 2000 Building Tomorrow's Biomedical Workforce: Evaluation of How Evidence-Based Training Programs Align Skill Development and Career Awareness with a Broad Array of Professions Adriana Bankston, Rebekah L. Layton, Audra Van Wart, 2025-08-27 Building the future STEM workforce requires robust federal investments to support the next generation of innovators as well as systemic changes to enable graduate and postdoctoral researchers to transition with confidence into the biomedical workforce This effort involves the transformation of the biomedical research enterprise and training environment at all levels but especially at the predoctoral and postdoctoral levels Innovative initiatives in education and training as well as career and professional development of biomedical trainees are necessary to build upon the robust biomedical workforce of today and create and sustain a diverse innovative and highly trained biomedical workforce of tomorrow An important aspect of supporting the biomedical workforce relates to changes within training and the research enterprise with opportunities for re imagining what STEM education should look like at different levels including providing agency for junior scientists in the field The future of the field should focus on inclusivity supporting trainees from different backgrounds and with diverse perspectives including but not limited to intersectional identities in race ethnicity gender sexual orientation first generation status and international talent in STEM This requires critical policy changes in order to support the transition of biomedical research professionals into the labor market
