Building Stronger Communities With Children And Families:

Building Stronger Communities with Children and Families Karl Brettig, Margaret Sims, 2015-10-05 This book captures the essence of how communities that better support healthy child development can be built It includes a look at key elements of the Australian Communities for Children initiative using a collaborative approach that takes into account community government and family How can the voices of children be heard in decision making processes that impact their futures How can the avalanche of electronic games the information superhighway and social media be negotiated to support educate and protect children living in an online world What does it mean to use a whole of community approach to supporting families How can government departments and non government agencies work together with communities to provide the kind of support that effectively engages families so that the quality of parenting improves and results in healthy child development What strategies can be developed in early childhood and school settings to improve family functioning How can the integration of fragmented services be improved While these are undoubtedly diverse questions this kind of holistic viewpoint is necessary if we are to redesign inadequate siloed approaches and build family friendly urban villages that deliver improved outcomes for children Complex early childhood trauma often leads to recurring problems for generations with significant economic cost if there is no effective intervention The current merry go round of services risks the re traumatisation and escalation of symptoms of those seeking help If significant change is to be witnessed relevant stakeholders need to make a concerted attempt to first of all listen to what children and families are saying and then to implement the kinds of practices and policies that will adequately address their needs and aspirations To do this a well trained workforce that understands the issues of holistic trans disciplinary and integrated work with children and families is required Governments and services can t do this alone Most families are more influenced by peers and associates and change needs to be galvanised across whole communities A whole of community approach involves linking together a place based combination of government non government and community initiatives to support families Services need to consider how they can work with individuals and community groups to develop the kind of social environment that enables families to flourish This is not an easy task and drawing on research and practical experience this book looks at some of the key ingredients needed by those individuals and organisations who dare to attempt it

The Greenwood Encyclopedia of Children's Issues Worldwide Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China from the violent street culture of Nigeria to the crippling poverty in Nicaragua from child trafficking in Thailand to child marriages in India this jam packed six

volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century. In recent years while many countries have enjoyed a higher standard of living and improved working conditions others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future. Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood. New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology. The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth. Organized by region, *The Greenwood Encyclopedia of Children's Issues Worldwide* is the first globally focused set of this magnitude offering extensive up-to-date coverage of these critical issues. Original chapters accessibly synthesize current data on key topics including education, play and recreation, child labor, family health, laws and legal status, religious life, abuse and neglect, and growing up in the 21st century.
